To Butler County Citizens and Taxpayers:

It is a privilege and an honor to present Butler County's *Comprehensive Annual Financial Report* (CAFR) for the year ending December 31, 2014. The primary purpose of this report is to provide a detailed accounting of the County's 2014 financial activity.

The report is prepared under standards prescribed by the Government Finance Officers Association (GFOA). GFOA conducts a comprehensive review of the reports each year and determines whether they qualify for the organization's prestigious *Certificate of Achievement for Excellence in Financial Reporting*. Moreover, the County is required to re-apply each year for the Certificate; and Butler County has received this award for 13 consecutive years.

The Office of the County Controller prepares the report with assistance from other County officials and employees; and the Board of County Commissioners supplies the commentary and analysis appearing in the *Management's Discussion and Analysis*. Departmental directors, elected row officers, and court officials also make significant contributions to the successful completion of the report. Responsibility for the accuracy, reliability, and completeness of the presentation, including all disclosures, rests solely with the County.

We believe that the financial information, as presented, is accurate in all material respects. Additionally, the report is designed to convey the financial position and results of operations of the County precisely, as measured by the financial activity of its various funds and reported by management. All disclosures deemed necessary to enable the reader to gain a clear understanding of the County's finances have been included within this report.

Maher Duessel, Certified Public Accountants, has independently audited the financial statements, as assurance that they are not materially misstated.

The audit was conducted in accordance with auditing standards generally accepted in the United States in compliance with *Government Auditing Standards*, as issued by the Comptroller General of the United States. The audit is also in adherence to the American Institute of Certified Public Accountants' (AICPA) Statement on Auditing Standard No. 99. This standard requires that audit procedures provide a reasonable likelihood for detecting any misstatement resulting from fraud.

Maher Duessel provided an unqualified opinion of the County's basic financial statements for the year ended December 31, 2014. The firm also audited federally-funded County programs subject to the auditing standards established by the *Single Audit Act of 1984*. These standards require the independent auditor to report on the fair presentation of the financial statements and, additionally, to report on the County's internal controls and its compliance with the legal requirements set for recipients of federal funds. Although these reports are not included in this report, they are available as a separate Single Audit Report issued by the auditor.

The CAFR, including its financial statements and statistical tables, was prepared in accordance with the standards established by the Government Accounting Standards Board (GASB), the GFOA, the AICPA, and applicable provisions of the County Code of the Commonwealth of Pennsylvania.

FORMAT OF THE REPORT

The 2014 CAFR is presented in the following three sections and subsections.

I. *Introductory Section* - (1) a listing of elected officials; (2) this transmittal letter; (3) a copy of the GFOA Certificate of Achievement for Excellence in Financial Reporting for the County's 2013 CAFR; and (4) the County's organizational chart, relevant maps, and photographs.

II. *Financial Section* - (1) the Independent Auditor's Report; (2) Management's Discussion and Analysis (MD&A); (3) the basic financial statements, which include government-wide financial statements, fund financial statements, and notes to the financial statements; and (4) required supplementary information, individual and combining financial statements, comparative budgetary information, and prior year information, as applicable, arranged by fund type.

III. *Statistical Section* - Provides the reader with historical financial data and selected demographic and comparative statistical information.

This report is comprehensive in scope, designed to provide the citizenry with an accurate accounting of the County's financial activities during the year, as well as to provide readers with relevant and practical information about the County.

The report is also intended for use by investors, creditors, bond underwriters, credit-rating agencies, and other governmental officials.

This report includes all funds, programs, and services provided by the County. Programs and services include the judicial system, the County prison, Sunnyview Nursing Home, Emergency Services, and human service programs.

GASB has established criteria for determining whether an organization is considered part of the County's reporting entity, and if it should be included in the CAFR as a component unit of the County. Under GASB Statement No. 61, the following criteria are used to determine whether an organization should be included as a component unit of the County's reporting entity: (1) the ability of the County to impose its will on the organization; and (2) the ability of the organization to impose a financial benefit or burden on the County. On the basis of these criteria, both the Butler County Airport Authority and the Butler County Community College are included as component units.

County Commissioners make a number of appointments to authorities and advisory boards. Since the County's relationship does not extend beyond this appointment process, such groups are precluded from the reporting entity. A more detailed discussion of this is found in notes to the financial statements.

HISTORY AND PROFILE OF BUTLER COUNTY GOVERNMENT

Butler County is located in southwestern Pennsylvania, and the County seat is situated in the City of Butler. The County is bounded on the south by Allegheny County. To the west are Beaver, Lawrence, and Mercer Counties. To the north is Venango County. The County's eastern border is shared with Clarion, Armstrong, and Westmoreland Counties. The County was formed in 1800, portioned from Allegheny County, and took its name from the Revolutionary War hero General Richard Butler, who served on George Washington's staff. Interestingly, there are two other counties in the United States named after General Butler - one in Ohio, and another in Kentucky.

The County has a land area of approximately 789 square miles with an estimated population of 185,943 residents. The U.S. Census Bureau estimated that the County's population grew by a net of 574 residents between July 2013 and July 2014. Seven of the County's 57 municipalities are estimated to have experienced increases during that same period, thus offsetting estimated declines in population for the other 50 municipalities. Notably, Cranberry was the third fastest growing township in Pennsylvania between 2010 and 2014. Butler County is comprised of 33 townships, 23 boroughs, and one city.

Pennsylvania is comprised of 67 designated counties. For the purposes of legislation and regulation, a county is further categorized into one of nine classes, as determined by the County's most recent census population.

Butler County became a Fourth Class county following the 1990 census, when its population was certified as exceeding 150,000 residents. The 2010 census determined the County's population to be 183,862 residents. This figure is short of the 210,000-person threshold required for Third Class county status.

The County's governing body consists of a three-member Board of Commissioners. Commissioners are elected at large for a term of four years. The County's elected officials are commonly referred to as row officers, and act primarily in an administrative capacity. These row officers are as follows: Clerk of Courts, Controller, Coroner, District Attorney, Prothonotary, Recorder of Deeds, Register of Wills & Clerk of Orphans' Court, Sheriff, and Treasurer.

Butler County's Court of Common Pleas is composed of six elected judges, with the most tenured judge occupying the position of President Judge. Judges are elected to a ten-year term of office. The County Magisterial District Court is made up of seven Magisterial District Judges, who are elected within geographical districts and serve six-year terms. All 13 County judges are State employees, and their compensation is paid entirely by the State. However, the overall cost of operating the court system is assumed largely by the County.

There are four principal Boards with authority over the County's administrative and fiscal matters. The Board of County Commissioners functions as the primary governing body of the County. The other three boards are the County: (1) Salary Board, (2) Prison Board, and (3) Retirement Board.

The County Salary Board, which determines the salaries for all non-elected County positions, is constituted of four permanent members: the three Commissioners and the County Controller. The Board of Commissioners sets the salaries of all elected county officials, with the exception of the District Attorney, whose salary is set by State statute. When an action of the Salary Board affects a position falling under another elected office, that official is entitled to a vote and becomes a fifth member of the Salary Board.

The County Prison Board is responsible for operational oversight of the County Prison. The Prison Board consists of the three Commissioners, County Controller, District Attorney, Sheriff, and one Judge of the Court of Common Pleas. The Prison Board meets in regular public sessions once a month.

The County Retirement Board oversees the County Employee Retirement Fund. The Retirement Board is composed of the three Commissioners, County Controller, and County Treasurer. Under Pennsylvania Act 96 of 1971 (*The County Pension Law*), the County Controller serves as Secretary of the Retirement Board and is responsible for administration of the Pension Fund. The Retirement Board holds public meetings once a quarter.

ECONOMIC CONDITION AND OUTLOOK

The local economy continues to rebound from the most recent recession. The Townships of Cranberry, Adams, Middlesex, Clinton, and Buffalo are anticipating accelerated growth as they add infrastructure supportive of population growth resulting primarily from an influx of residents moving from neighboring counties. Butler County has continued to gain population during the last decade, with the County's population growing by more than five percent in the last census. The median age of a County resident is 41.5 years, according to the U.S. Census Bureau. The southern portion of the County has been experiencing considerable growth since the completion of Route 28 and Interstate 279, with the most notable growth seen in the areas surrounding Interstate 79 and Route 228. Furthermore, the growth of Butler County's tax base has paralleled the boom in residential and commercial construction.

The real estate tax on a parcel of property is determined by applying the County's millage rate to the property's assessed value. Any changes to the millage rate occur in the month of December, when the County's budget is acted on by the Commissioners. In 2014, the County Commissioners adopted a budget that maintained the same tax rate as the previous year, at 24.63 mills. However, during the same year, the assessed value of taxable property grew by nearly \$20 million, to \$1.72 billion, according to County assessment records.

Exploration of the Marcellus Shale gas formation continued to impact Butler County residents in 2014. Undoubtedly, many property owners have benefited financially in recent years from efforts to extract natural gas and other products from this enormous reservoir, which runs approximately a mile below the surface in parts of Pennsylvania. Another natural gas reservoir, which exists beneath the Marcellus formation and is known as the Utica Shale, was recently explored in Butler County near Portersville in Muddy Creek Township.

At the end of 2014, Butler County had a total of 341 unconventional producing wells, according to the Pennsylvania Public Utility Commission. That number represents a 41% increase over the 242 wells in place at the end of 2013. With the passage of Act 13 in 2012, the County began to receive a portion of the annual impact fees collected from natural gas companies. Butler County was allocated over \$2.1 million of 2014 impact fees, up from \$1.7 million in 2013.

According to the PA Department of Labor & Industry, the County's unemployment rate was 4.4% at the end of 2014 - one of the lowest rates among Western Pennsylvania counties. For instance, Westinghouse remains the County's largest employer, with its headquarters in Cranberry Township. Also headquartered in Cranberry Township is Mine Safety Appliances (MSA), the world's largest manufacturer of safety equipment and systems for industrial workers. Additionally, PPG Industries recently established its North American Architectural Coatings headquarters in Butler County.

Transportation

For years, the County has benefited from an extensive transportation system. Indian trails that traversed the County brought traders and explorers on their way to Erie from Pittsburgh. Today, Interstate 79 follows a similar route as it courses through the western portion of the County. Continuing, Interstate 80 touches the northern border of the County on its journey connecting New York with San Francisco. Both interstates have interchanges affording travelers direct access to the County's other major highways. Specifically, the Pennsylvania Turnpike (Interstate 76) runs along the County's southwestern border, and the Allegheny Valley Expressway (Route 28) crosses the southeastern corner of the County. The Cranberry Connector created a new interchange in southernwestern Butler County and provides direct access to the Turnpike from Interstate 79. This project has reduced traffic congestion at the intersection of Route 19 and Route 228, one of the busiest corridors in Western Pennsylvania. Construction completed in 2014 alleviated some of this congestion by adding additional ramps and widening lanes. The project expanded a section of Route 228 about a mile from Route 19 to four westbound and three eastbound lanes. New ramps off of I-79 in Harmony were also recently installed near the newly developed Jackson's Pointe Commerce Park.

Railroads serving the County include the Buffalo and Pittsburgh, the Bessemer and Lake Erie, Norfolk Southern, and the CSX Railroad. Pittsburgh International Airport, providing commercial airline service, is less than a one-hour drive for most County residents. Also, local airports include the Butler County Airport, Zelienople Municipal Airport, Butler Farm Show Airport, and Lakehill Airport. In addition, numerous motor freight carriers conducting business in the County provide commercial trucking service; and the County has access to the nation's largest inland waterway via an Allegheny River port.

Education

Butler County is one of only two counties in Pennsylvania to have both a community college and a State university. Butler County Community College (BC3) opened in 1966, and has been recognized as a regional community college. BC3 is governed by 16 trustees who are appointed by the County Commissioners. The college offers 63 associate degrees, as well as both career and transfer programs. Citizens from the Borough of Slippery Rock founded Slippery Rock Normal School in 1889. The institution was later purchased by the Commonwealth and renamed Slippery Rock State Teachers College. The institution achieved University status in 1989; and Slippery Rock University (SRU) is now a member of the State System of Higher Education. BC3 recently celebrated its 50th anniversary and SRU celebrated its 125th anniversary. Several other major colleges and nationally ranked universities are within the region surrounding the County, and many of these institutions offer courses and degrees at the Regional Learning Alliance located in Cranberry Township.

Health Care

Butler Health System (BHS) operates Butler Memorial Hospital, an acute-care general hospital that serves Butler County. BHS also offers four FastERcare (urgent care) facilities and provides primary care as well as specialty care services. UPMC Passavant Hospital has a campus in Cranberry that serves the area as a tertiary care center. It also is one of the locations for STAT MedEvac, which provides air medical transport. Allegheny Health Network is also a provider of aeromedical transportation, with one of its LifeFlight emergency medical helicopters situated at the Butler County Airport. The Butler Veterans Administration (VA) Hospital is located in Butler Township and provides primary care, behavior health, rehabilitation, and extended care to veterans.

Parks & Recreation

The County's premier recreational site is Moraine State Park, a sixteen thousand acre state park surrounding Lake Arthur. The park occupies portions of Brady, Clay, Franklin, Muddy Creek, and Worth Townships and offers hiking, bicycling, boating, swimming, camping, picnicking, and hunting & fishing activities. The park has twice hosted the National Boy Scout Jamboree; and it features Lake Arthur, a 3,225-acre man-made lake with over 42 miles of scenic shoreline. Adjacent to Moraine State Park is the home of the Jennings Environmental Center, site of the only relic prairie in the eastern United States; and its primary goal is to provide environmental education to the citizens of Pennsylvania. Then, located just outside of the County is McConnell's Mill State Park, which is most noted for its gristmill, covered bridge, and gorges, carved by a cascading Slippery Rock Creek.

Butler County maintains Alameda Park, which provides over 408 acres of scenic woodlands, a number of picnic shelters, and an Olympic-size public pool. Noteworthy, many larger communities in the County maintain parks, as well as sports and swimming facilities. As an example, Butler Township recently opened Preston Park, which offers nearly a hundred acres of walking trails, fishing ponds, wildlife, and unique plants. Equally notable, Cranberry Township operates a waterpark and a highly-ranked municipal golf course. Unsurprisingly, there are also numerous fishing streams and game lands.

Pullman Park was built in 1934 by volunteers on land leased from the Standard Steel Car Company. During its prime, historic Pullman Park was home to minor league (farm) teams of the New York Yankees, Cleveland Indians, Detroit Tigers, and Pittsburgh Pirates. The Redevelopment Authority of the City of Butler recently assumed ownership and obtained funding for construction of the new Pullman Park. As a result, County residents can currently enjoy all home games of the locally-owned Butler Blue Sox franchise.

History

The County's historical tapestry is rich and colorful, and is recognized as the "Birthplace of the Jeep." In 1940, the Bantam Car Company of Butler won the U.S. Army's contract for the development of a four-wheel drive, light-weight transport vehicle. The design and initial manufacturing of this vehicle, commonly known as the Jeep, was at the Bantam Car plant in Butler County. General Eisenhower considered the Jeep as one of the major factors contributing to the Allies' victory in World War II.

Butler County has a rich history that has fostered a number of historical societies, including ones in Butler, Cranberry, Evans City, Harmony, Lancaster, Mars, Prospect, Saxonburg, Slippery Rock, Valencia and Zelienople. Historical preservation efforts have restored many original homes and businesses dating to the early nineteenth century. One well-known example is the Harmonist Society preservation. Harmonists settled in what is now Harmony Borough, which has been designated as a National Historical District. Other notable preservations include the Old Stone House, the Lowrie House, the Little Red School House, and the Cooper Cabin Pioneer Homestead.

About a decade ago the County completed a project of affixing historical markers along the path taken by George Washington through the County in 1753. The markers display the likely course followed by the future President as he carried out a diplomatic mission to the French garrison at Fort LeBoeuf, near present-day Erie. During Washington's trek through Butler County, he narrowly escaped death when an Indian assailant fired upon him at close range with a musket. Hence, a large stone marker was placed in Forward Township along Route 68 to identify the approximate site of the assault that marks our County's historical connection to the French and Indian War.

Culture

Many local organizations provide the local community with a reasonably priced opportunity to enjoy culture and the arts. These include the Butler Arts Council, Associated Artists of Butler County, Blazing Star Choral Society, Butler Little Theater, and Musical Theater Guild. Also of importance, the Butler County Symphony has been considered as one of the State's finest regional professional orchestras, providing quality orchestral performances within a community framework for over 50 years. Cultural opportunities also include the Maridon Museum, which offers entire collections that were gifts endowed by the late Mary Hulton Phillips. Located in the City of Butler, this museum contains an outstanding collection of Chinese and Japanese art objects. It should be noted that it is the only museum in the Western Pennsylvania region with a specific focus on Asian art and culture.

Tourism

Counties in Pennsylvania have the option of imposing a bed tax on overnight lodging charges. Butler County established a bed tax on January 1, 2002 at a 3% level, and collections from the tax exceeded \$1.4 million in the past year alone. Importantly, all collections must be used exclusively for tourism promotion through the County's designated tourism promotion agency. Founded in 2002, the Butler County Tourism & Convention Bureau was designated by the Butler County Commissioners as the official tourism promotion and development organization for the County. Members of the Bureau represent agritourism, fairs & festivals, golf, history, great outdoors, arts & culture, family fun, dining, shopping, and accommodations. Annually, the Tourism Bureau hosts the Bantam Jeep Heritage Festival, which includes the signature Jeep Invasion in downtown Butler, a Jeep Playground, off-road Jeep trails, a World War II encampment, and other historical exhibits. The Tourism Bureau also organizes the Butler County Farm Tour. This yearly event showcases the farming community while promoting the agricultural industry.

Agriculture

Butler County is an active participant in the Pennsylvania Farmland Preservation Program, which funds the creation of agricultural easements, protecting qualifying farmland from future development. The program provides a financial incentive to eligible farmers who choose to maintain their land exclusively for farming purposes; and through this program, the County's Conservation District has secured 45 farms totaling 5,015 acres of farmland.

The County's Conservation District also provides services for erosion control, obstruction & encroachments, nutrient management, and dirt & gravel road maintenance. The Conservation District is governed by a nine-member Board of Directors that includes one County Commissioner. Directors are appointed by the County Commissioners. According to the most recent agriculture census, there are 1,061 farms in Butler County, with over 136,237 acres of farmland. Also, through the county-based partnership with the Penn State Extension, local residents and businesses benefit from a range of educational programs.

Veteran Affairs

The County's large population of military veterans is served by the County's Veterans Service's office and several active VFW and American Legion Posts. The primary purpose of the office is to assist veterans and their spouses with the filing of claims to the United States Department of Veteran Affairs. It also conducts a Memorial Day Ceremony and a Veterans Day Program. The office also assists with organizing the Memorial Day and Veterans Day parades. Additionally, the office assists in building memorials and paying a small allowance to resident veterans and their spouses to alleviate burial expenses.

MAJOR INITIATIVES AND FACTORS AFFECTING FINANCIAL CONDITION

The County remains a leader in the implementation of emergency management and 911 technologies. It was among the first counties in Pennsylvania to install an enhanced 911 system that automatically displays a caller's physical location when an emergency call is received at its 911 Emergency Facility. This is of major importance because a strong majority of the County's 911 calls originate from cell phones. Hence, the state legislature imposed a monthly fee of one dollar on all cell phone subscribers to help offset the cost of cell phone-related emergency calls. Regrettably, the County has received only a fraction of its eligible reimbursable expenses related to emergency calls from cell phones.

Economic development is encouraged by the County through an annual appropriation to the Butler County Community Development Corporation, and it makes sizeable contributions to its two component units: the Butler County Airport Authority and the Butler County Community College (BC3). Although the Airport Authority operates autonomously from the County, the County remains financially accountable for the Airport Authority. However, funding for Community College is guided by state law. When the state legislature passed the Community College Act of 1963, it was intended that the costs of operating a community college would be shared equally among the County (the sponsor), the Commonwealth of Pennsylvania, and local tuition. Nevertheless, the legislation requires that the remaining operating expenses, after tuition and state appropriations have been deducted, are to be assumed by the sponsor.

Butler County has promoted access to public libraries by appropriating funds to its Federated Library System (BCFLS). The County has community libraries in Butler, Chicora, Cranberry, Evans City, Mars, Prospect, Saxonburg, West Sunbury, and Zelienople. The BCFLS also operates a traveling Book Mobile.

The County continues to maintain its membership with the Southwestern Pennsylvania Commission (SPC). The SPC is a ten-county metropolitan planning organization responsible for prioritizing the use of all state and federal transportation and economic development funding allocated to the region.

County officials continue to plan and promote initiatives for economic growth and job development. These initiatives are designed to enhance the overall quality of life for the citizens of Butler County, while simultaneously maintaining lower property taxes. Tax revenues continue to grow for many taxing districts in the County, especially those located in areas experiencing significant residential and commercial growth. Yet even with a relatively static millage rate in the past few years, Butler County property tax revenues continue to increase. This may be seen in 2014, when revenues from taxes increased by over \$600,000—without a tax increase! Regardless, property taxes constitute over three-fourths of General Fund revenues, while the remaining fourth is acquired through charges for services, fines, forfeitures, and fees.

ACCOUNTING SYSTEM, INTERNAL CONTROL, AND FINANCIAL POLICIES

All Governmental Funds are accounted for on the modified-accrual basis of accounting, while the Agency Funds are on a full-accrual basis of accounting. The government-wide financial statements are prepared under GASB Statement No. 34 on the full-accrual basis of accounting. Under modified-accrual, revenue is recorded when susceptible to accrual and is considered both measurable and available. "Available" is defined as collectible within the current period or soon enough thereafter to pay current liabilities.

Expenditures are generally recognized when the related fund liability is incurred, except for: (1) disbursements for inventory items, which are recorded as expenditures at the time of purchase and (2) principal and interest on long-term debt, which is recognized when it becomes due. Financial statements for the Proprietary and Fiduciary Funds are maintained on a full-accrual basis, with revenue recognized when earned and expenses recorded when incurred.

The adequacy of internal control is given consideration when evaluating the County's accounting system. Internal accounting controls are intended to provide reasonable, but not absolute assurance that assets are safeguarded against loss from unauthorized use or disposition; the financial records used for preparing financial statements are reliable; and accountability for assets is properly maintained. The concept of reasonable assurance recognizes that the cost of maintaining an internal control procedure should not exceed the benefits likely to be derived from it, and also recognizes that any evaluation of cost and benefits involves the use of estimates and judgments by management.

Commissioners are required to adopt an annual budget resolution by the end of each year. The County maintains budgetary controls that ensure compliance within the provisions set by the resolution and Pennsylvania statute. The Budget Director and the County Controller maintain budgetary control at the departmental level through a monitoring and review process, and a description of the budget process is provided in notes to the financial statements.

The Commissioners must authorize any expenditure that would cause the budgetary control to be exceeded through a public action. Appropriations lapse at the close of the fiscal year to the extent that they have not been expended.

EXPLANATION OF FUND STRUCTURE

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. Each fund is accounted for with a separate set of self-balancing accounts, comprised of its assets, liabilities, fund equity, revenues and expenditures.

SUMMARY OF 2014 FINANCIAL ACTIVITY INCLUDING SIGNIFICANT POLICY DECISIONS AFFECTING THE FINANCIAL STATEMENTS

The governmental funds within the County include the General Fund, forty-two Special Revenue Funds, six Capital Project Funds, and a Debt Service (sinking) Fund. The governmental funds' total revenues equal \$94,347,834 and total expenditures equal \$137,201,828 (including \$39.7 million in debt refinancing) for the year. The County also has three Proprietary (business-type) Funds, a Fiduciary (trust) Fund, and nine Agency Funds.

General Fund revenues, and transfers-in of \$2.2 million, totaled \$56,510,642. General Fund expenditures and transfers-out of \$10.2 million, totaled \$57,844,450. The schedule appearing on page I-14 displays the 2014 General Fund expenditures, including transfers, by administrative category. For the purposes of this trend analysis, the schedule provides a summary comparison between the 2014 and 2004 expenditures. Compared to 2013, total General Fund revenues, including transfers, increased by \$1,900,428; however, total General Fund expenditures, including transfers, increased by \$3,510,287.

The reader is directed to the Management's Discussion and Analysis (MD&A) section of this report for further narrative regarding the County's year-end financial condition and outlook. The MD&A is intended to present an analysis of the 2014 financial performance, and to provide the reader with additional commentary. The Commissioners, through the Director of Administration and Chief Clerk, are responsible for the preparation and content of the MD&A.

Butler County's Employee Pension Fund is a fiduciary account established under Pennsylvania Act 96 and offers a defined benefit retirement plan for all eligible County employees. At the end of 2014, the plan's net position held in trust totaled \$179,990,326 which was an all-time market value high: net position increased by \$8,160,644 from the previous year. The County Pension Fund had 650 active and vested members, and the number of retirees or beneficiaries totaled 574 on December 31, 2014. It should be noted that the County's Pension Fund appropriation represents one of the largest components of the County's budget, as evidenced by its 2014 contribution of \$6,152,213. With approximately half of this appropriation being reimbursed by the State, the County continues to make its actuarially required contribution each year.

As of the most recent actuarial valuation date, the County had funded over 88% of its total pension obligation, a level considered within acceptable standards for an employee pension plan. The County Retirement Board has endorsed the use of conservative actuarial assumptions in valuing its pension liability. Butler County provides no other post-employment benefits (OPEB) except those established through its Pension Plan, or does it have any existing or potential liabilities for benefits granted to employees in prior years.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association awarded the County's 2013 CAFR its *Certificate of Achievement for Excellence in Financial Reporting*. This represents the thirteenth consecutive year in which the County has achieved this eminent award. To earn the Certificate of Achievement, the government entity must produce a well-organized, easily readable, comprehensive financial report that satisfies all GFOA requirements, while simultaneously meeting specific accounting and auditing standards. A Certificate of Achievement is valid for only one year. Since we believe that the 2014 CAFR continues to meet the requirements established by the Certificate of Achievement Program, we are submitting this year's report to the GFOA review process for eligibility.

I wish to acknowledge the assistance of those who contributed to the report's successful completion this year, and also to recognize those who have assisted in its successful completion in past years. Additionally, appreciation is extended to the Board of County Commissioners, the County Treasurer, the County Planning Department, and the County Property and Revenue Office.

Much appreciation is also expressed to the row offices and departments supplying the information presented in the statistical section. Thank you also, Maher Duessel, for your support in successfully completing this report.

It is especially for the dedicated staff in the Controller's office that I reserve the fullest and greatest measure of appreciation and gratitude. Thanks, team!

Respectfully submitted,

FINANCIAL SECTION

Independent Auditor's Report

Board of County Commissioners and
 County Controller
 County of Butler, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Butler, Pennsylvania, (County) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County as of December 31, 2014, and the respective changes in financial position and, where

applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the pension information on pages II-3 through II-26 and IV-1 through IV-7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

Introduction

The management of the County of Butler (County) is pleased to present to the readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the year ended December 31, 2014. The information contained herein should be considered in conjunction with the additional information that we have furnished in the letter of transmittal (pages I-2 to I-16), the basic financial statements (pages III-1 to III-13), and the notes to financial statements (pages III-14 to III-87).

Financial Highlights

- The County's net position increased \$10,924,838 to \$59,249,658 in 2014.
- Unrestricted net position was \$21.0 million at December 31, 2014.
- The County's real estate property tax rate for general purpose remained at 20.688 mills.
- The County's real estate property tax rate for debt service remained at 3.94 mills.
- The County increased its bond rating from Standard & Poor's to AA- in 2014 from A+ in 2013.
- At December 31, 2014, the County had \$45.9 million of debt outstanding. This represents a net decrease of approximately \$3 million.
- The total fund balance of the General Fund at December 31, 2014 was \$7.7 million. The assigned fund balance for the 2015 budget is \$4.4 million, which represents approximately 7.2% of the revenue projected for 2015.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Overview of the Financial Statements

This Management's Discussion and Analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements consist of three components: *government-wide financial statements*, *fund financial statements*, and *notes to financial statements*. This report also contains other supplementary information in addition to the basic financial statements themselves.

A detailed explanation of all three components follows:

- **Government-Wide Financial Statements:** The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the County's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation or sick leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include: general government, criminal justice system, public safety, public works, human services, culture and recreation, and conservation and development. The business-type activities of the County include the operation of the Sunnyview Nursing and Rehabilitation Center, Health Choices, and the Emergency Communications 911 Center.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The government-wide financial statements include not only the County itself (known as the *primary government*), but also the component units of Butler County Community College and the Butler County Airport Authority, over which the County exercises some degree of control. Financial information for these component units is reported separately from the financial information presented for the primary government itself. Each of the component units issues separate financial statements.

The government-wide financial statements can be found on pages III-1 and III-2 of this report.

- **Fund Financial Statements:** The fund financial statements provide more detailed information about the County's most significant funds. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: *governmental funds*, *proprietary funds*, and *fiduciary funds*.

- ***Governmental Funds*** – Governmental funds are used to report essentially the same functions presented as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The County maintains 50 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balance for the five major funds (General, Mental Health/Early Intervention/Intellectual Disabilities, Health Services Block Grant, Children & Youth Services, and Capital Reserve). Data from the other 45 non-major governmental funds are combined into a single, aggregated presentation (*other governmental funds*). Individual fund data for each of these other governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages III-3 to III-8 of this report.

- ***Proprietary Funds*** – The County maintains one type of proprietary fund, namely, *enterprise funds*. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the Sunnyview Nursing and Rehabilitation Center operations, Health Choices, and the Emergency Communications 911 Center.

The proprietary funds statement provides the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Sunnyview Nursing and Rehabilitation Center operations, Health Choices, and the Emergency Communications 911 Center. The proprietary fund financial statements can be found on pages III-9 to III-11.

- ***Fiduciary Funds*** – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages III-12 and III-13 of this report. It includes the *pension trust fund* and the

MANAGEMENT'S DISCUSSION AND ANALYSIS

agency funds. The agency funds are the fees, fines, costs, etc., collected by the County Row Officers, held in trust for disbursement to third parties.

- **Notes to Financial Statements:** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide financial statements and the fund financial statements. The notes to financial statements can be found on pages III-14 to III-87 of this report.
- **Required Supplementary Information:** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages IV-1 through IV-7 of this report.
- **Supplementary Information:** The combining statement referred to earlier in connection with other governmental funds is presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages V-1 to V-13 of this report.

Financial Analysis of the County as a Whole

The County is presenting its financial statements as required by Governmental Accounting Standards Board (GASB) Statement No. 34, "*Basic Financial Statements and Management's Discussion and Analysis (MD&A) for State and Local Governments.*" The statement of net position and the statement of activities report information about the County as a whole and about its activities to measure the results of the year's activities.

Assets and Deferred Outflows of Resources and Liabilities and Deferred Inflows of Resources – By Activity Type

The following graph depicts assets and deferred outflows of resources and liabilities and deferred inflows of resources at December 31, 2014, by activity type:

MANAGEMENT'S DISCUSSION AND ANALYSIS

Discussion of Summary of Net Position and Assets and Deferred Outflows of Resources in General – Governmental Activities

At the end of 2014, the County's total net position related to governmental activities increased \$16.3 million. Cash and cash equivalents increased from \$15.4 million in 2013 to \$26.7 million at the end of 2014. At the end of 2014, the County's total assets and deferred outflows of resources (excluding capital assets) related to governmental activities increased by approximately \$11.7 million. The significant fluctuations from 2013 compared to 2014 are primarily due to the sale proceeds of Sunnyview Nursing and Rehabilitation Center, which were transferred to the County's Capital Reserve Fund to fund current and future capital projects.

Capital assets increased to \$76 million in 2014 from \$71.2 million in 2013.

GASB Statement No. 34 requires that all capital assets, including infrastructure, be valued and reported in the government-wide financial statements. Retroactive reporting of projects acquired or finished prior to 2003 occurred during 2007 through the County's implementation of retroactive infrastructure.

Of the net position, \$6.9 million is restricted for various purposes, \$21.0 million is unrestricted and available to support operations or provide for the payment of long-term debt at the government-wide level, and \$30.2 million is net investment in capital assets.

Discussion of Summary of Net Position and Assets and Deferred Outflows of Resources in General – Business-Type Activities

During 2014, the net position of the County's business-type activities decreased from \$6.5 million to \$1.1 million with a deficit of \$5,378,872.

Cash and cash equivalents decreased by approximately \$2 million, accounts receivable and due from other governments decreased by approximately \$4.9 million, the internal balances increased by approximately \$4.2 million, and capital assets decreased by approximately \$6.7 million. Liabilities and deferred inflows of resources decreased by approximately \$3.8 million. The significant fluctuations from 2013 compared to 2014 are primarily due to the County divesting its ownership of the Sunnyview Nursing and Rehabilitation Center, which became effective May 17, 2014.

Sources of Revenues – Governmental Activities

The following chart graphically depicts the governmental activities sources of revenues for the year ended December 31, 2014:

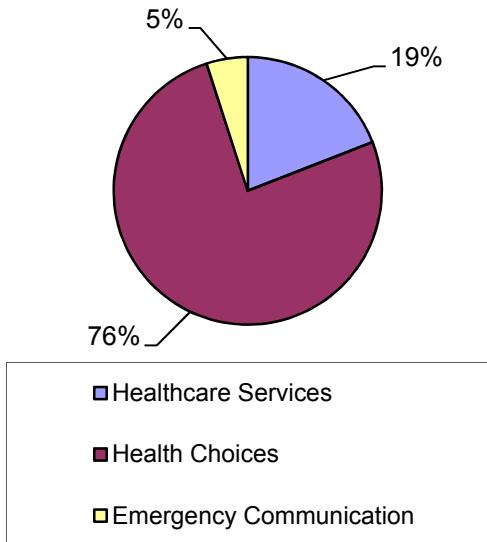

Total revenues from governmental activities for 2014 were \$94,853,536, which was approximately \$1.5 million higher than the 2013 year. Operating grants and contributions account for 38.1% of the 2014 governmental activities revenue, amounting to \$36,606,177 compared to \$33,403,679 in 2013. This difference is related partly to the fiscal-year funding structure of Human Services programs and partly to additional funding granted by the state. Areas that received additional funding included the Children and Youth Agency for needed staffing and the Area Agency on Aging for home modifications. In addition, the Medical Assistance Transportation Program provided additional transportation services to eligible residents, and Early Intervention provided services to additional children, both of which resulted in added reimbursement from the state.

Sources of Revenues – Business-Type Activities

The following chart graphically depicts the business-type activities sources of program revenues for the year ended December 31, 2014:

Sources of Program Revenues - Business-Type Activities **Total Revenues: \$39,233,019**

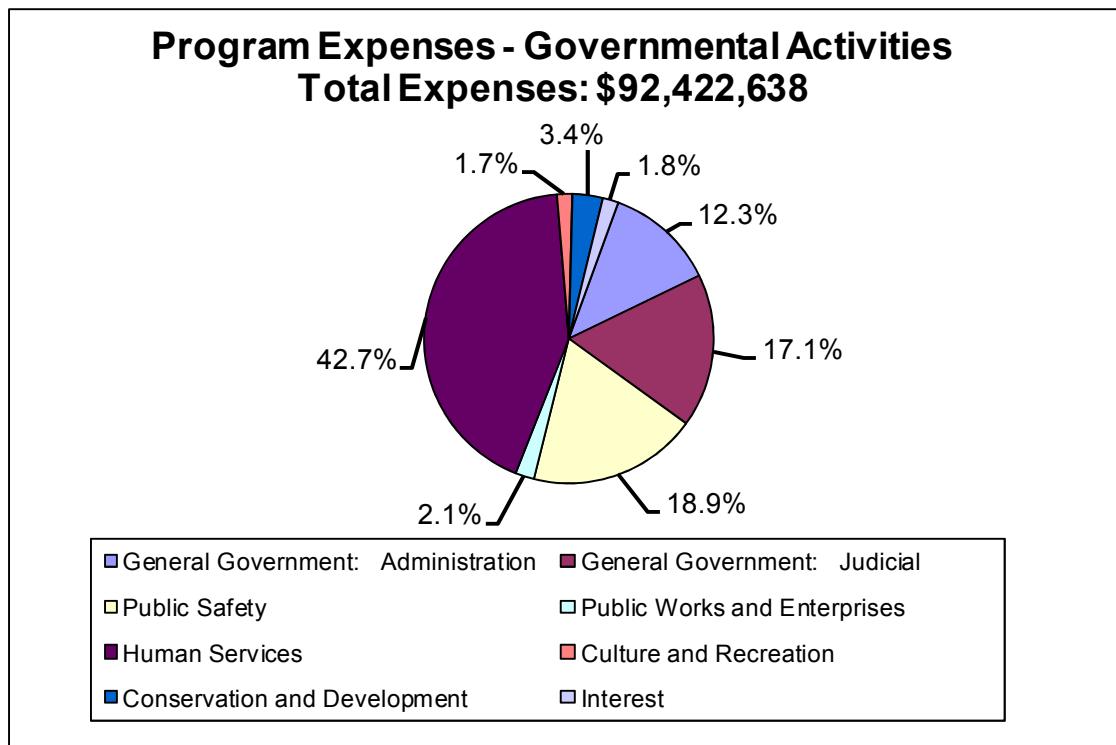

Sunnyview Nursing and Rehabilitation Center, Health Choices, and the Emergency Communications 911 Center are the three business-type activities reported with the County. Sunnyview Nursing and Rehabilitation Center received revenue of \$7.5 million in 2014 compared to \$18.8 million in 2013. This decrease is consistent with the County's sale of the nursing home, which became effective May 17, 2014. Health Choices revenue remained fairly consistent at \$29.8 million in 2014 compared to \$30.6 million in 2013. The Emergency Communications 911 Center revenues also remained relatively consistent with revenues totaling \$1.8 million in 2013 and \$2.0 million in 2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Program Expenses – Governmental Activities

The following chart graphically depicts the governmental activities program expenses for the year ended December 31, 2014:

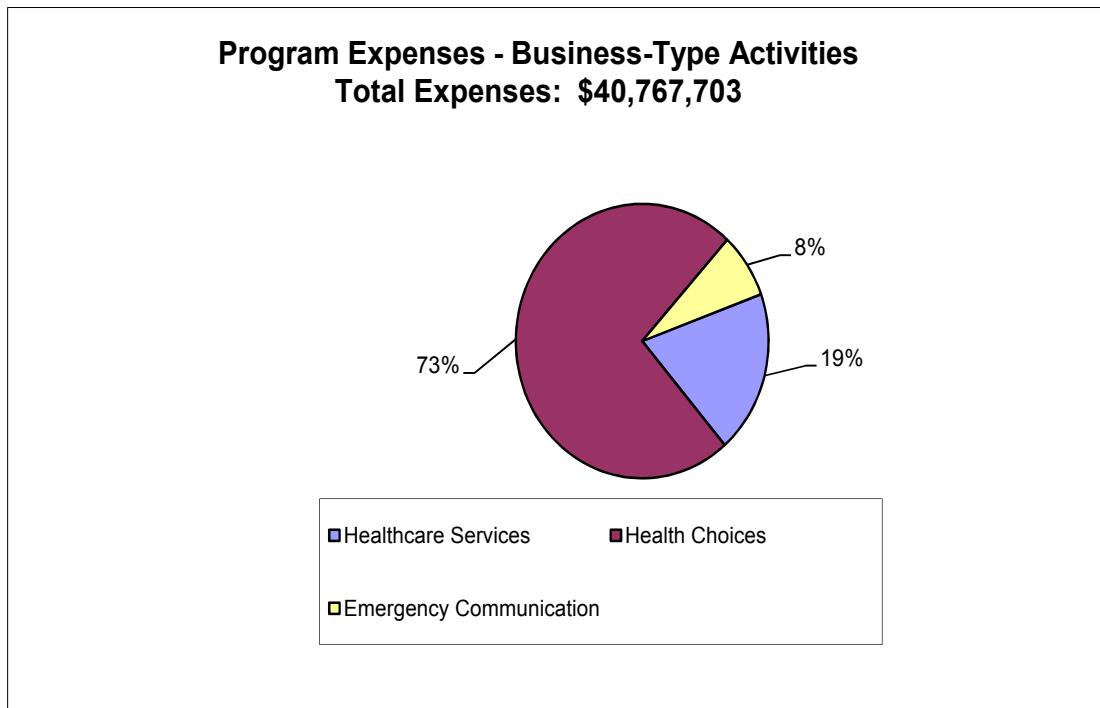

Program expenses for the County's governmental activities amounted to approximately \$92.4 million for the year ended 2014. This compares to \$88.2 million for the year ended 2013. General government administration increased from \$10.7 million in 2013 to \$11.3 million in 2014. This increase of approximately \$600,000 was in part due to an increase of nearly \$200,000 to account for the vacation accrual at year-end. The remaining increase of approximately \$400,000 was distributed across a variety of expenditures with no one increase being significant. General government judicial increased from \$15.3 million in 2013 to \$15.8 million in 2014. This increase of approximately \$500,000 was distributed across a variety of expenditures with no one increase being significant. Public safety increased from \$16.5 million in 2013 to \$17.5 million in 2014. This increase of approximately \$1.0 million is largely attributable to higher-than-budgeted personnel expenses at the Butler County Prison and a significant increase in the cost of contracted medical services provided to inmates. Human services expenses increased from \$37.1 million in 2013 to \$39.5 million in 2014, due primarily to expanded services provided to clients through the Children & Youth Agency, the Area Agency on Aging, and the Medical Assistance Transportation Program. The remainder of the expense categories remained fairly consistent between 2013 and 2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Program Expenses – Business-Type Activities

The following chart graphically depicts the business-type activities program expenses for the year ended December 31, 2014:

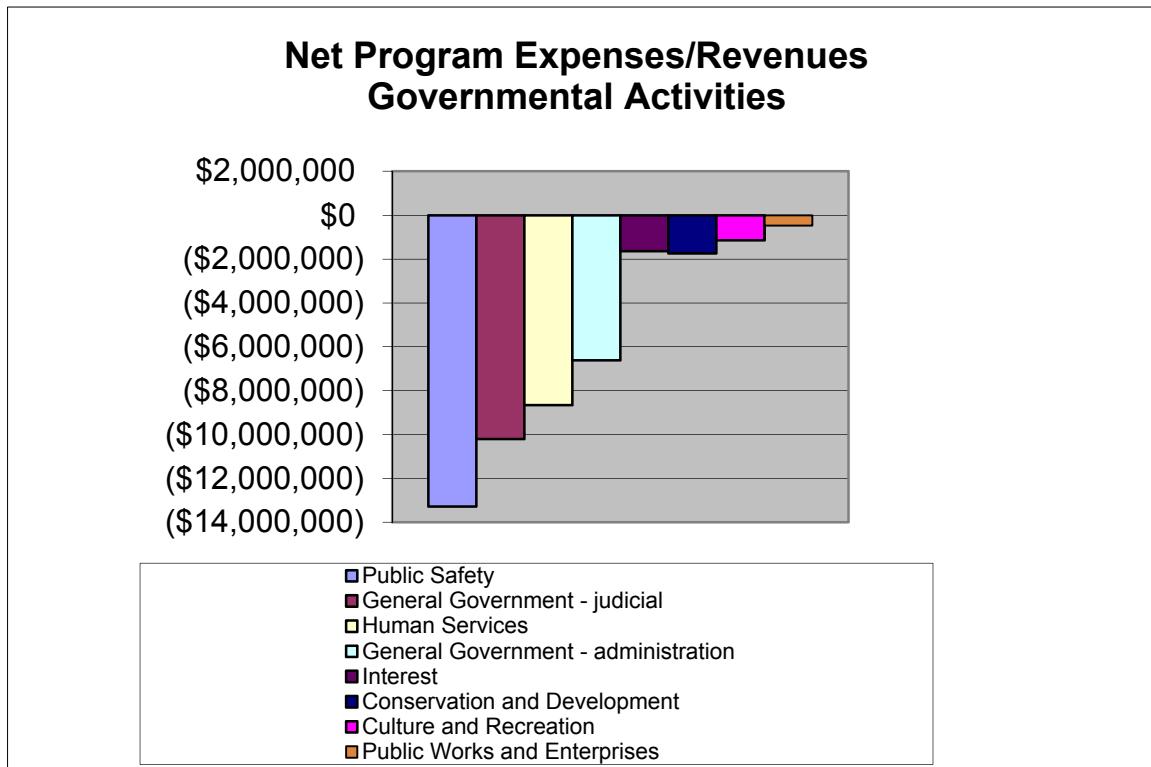

Program expenses for Sunnyview Nursing and Rehabilitation Center decreased to \$7.8 million in 2014 from \$20.3 million for the 2013 year. As noted elsewhere, the County sold the nursing home effective May 17, 2014. Program expenses for Health Choices remained fairly consistent at \$30.6 million in 2013 compared to \$29.8 million in 2014. The Emergency Communications 911 Center program expenses remained consistent at \$3.1 million in both 2013 and 2014.

Net Program Expenses/Revenues – Governmental Activities

Net program expenses/revenues indicate the amount of support required from taxes and other general revenues for the year. The following chart graphically depicts the net program expenses/revenues for governmental activities by function/program for the year ended December 31, 2014:

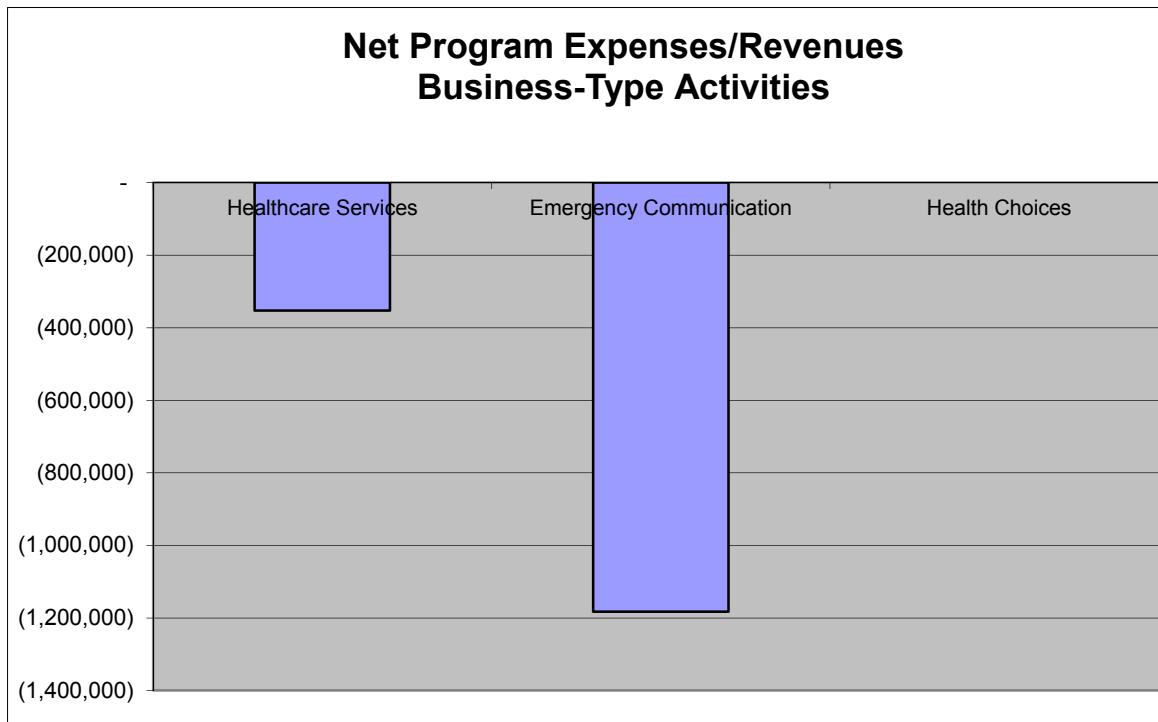

Net program expenses/revenues for governmental activities increased from (\$40.1) million in 2013 to (\$43.8) million in 2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Net Program Expenses/Revenues – Business-Type Activities

The following chart graphically depicts the net program expenses/revenues for business-type activities by function/program for the year ended December 31, 2014:

Net program expenses/revenues for business-type activities decreased from (\$2.7) million in 2013 to (\$1.5) million in 2014. The change is mainly due to the fact that the County only operated Sunnyview Nursing and Rehabilitation Center for part of the year, prior to the transfer of ownership effective May 17, 2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Analysis of the County's Funds

Butler County, located in southwestern Pennsylvania, lies on the fringe of the Pittsburgh urban area and has been linked to the Pittsburgh area for employment, recreation, and cultural opportunities. Since 1960, it has been the growth county in the southwest region, with a growth rate of 38% (69,223 persons) between 1960 and 2010. The population in the County increased from 174,083 in 2000 to 183,862 in 2010. Estimates now place the population at 185,943.

The County's steady growth can be attributed to its location at the crossroads of several major highways, the availability of developable land served by public utilities, a favorable tax base, and proximity to the Pittsburgh area.

During the year ended December 31, 2014, municipalities within the County issued 2,807 building permits, up from 2,721 issued in 2013. The Assessment Office regularly reminds municipalities of their obligation to report all building permit information to the County as per the current requirements of the Uniform Construction Code. The County assessors also canvass each municipality in search of construction for which building permits have not been issued. The fair market value of real estate increased by \$2.5 billion during 2014 to a total fair market value of \$15.1 billion. The difference results from improvements in the economy and the continued growth of the County.

In 2013, the County billed \$185,623 in additional interim taxes. The interim tax bills include new construction from the date of completion for the remaining months in the calendar year. In 2014, the County billed \$203,168 in additional interim taxes.

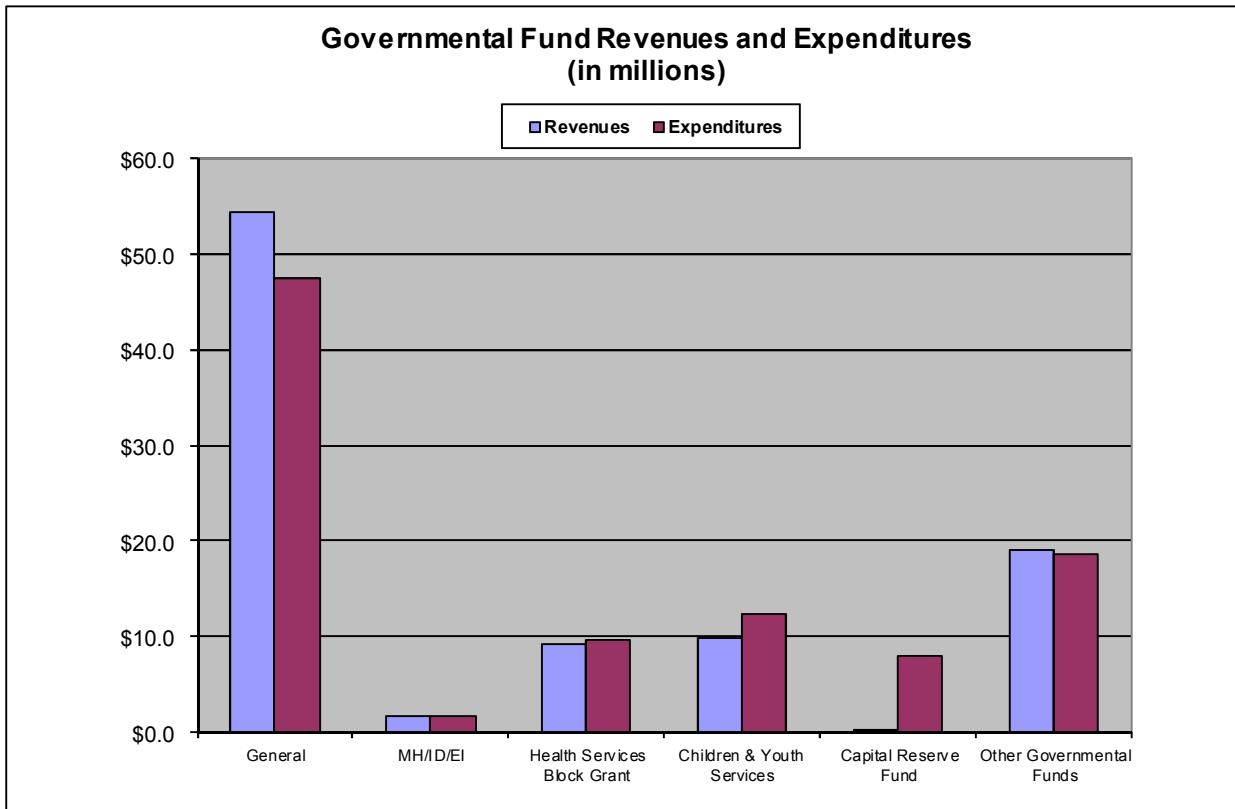

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The County has 50 governmental funds; five of them are major funds (General, Mental Health/Early Intervention/Intellectual Disabilities, Health Services Block Grant, Children & Youth Services, and Capital Reserve) and 45 of them are other governmental funds. A complete listing of the other governmental funds is on pages V-1 to V-8. The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balances may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Governmental Funds Revenues/Expenditures

The following chart graphically depicts the total revenues received and expenditures incurred by the Governmental Funds for the year ended December 31, 2014:

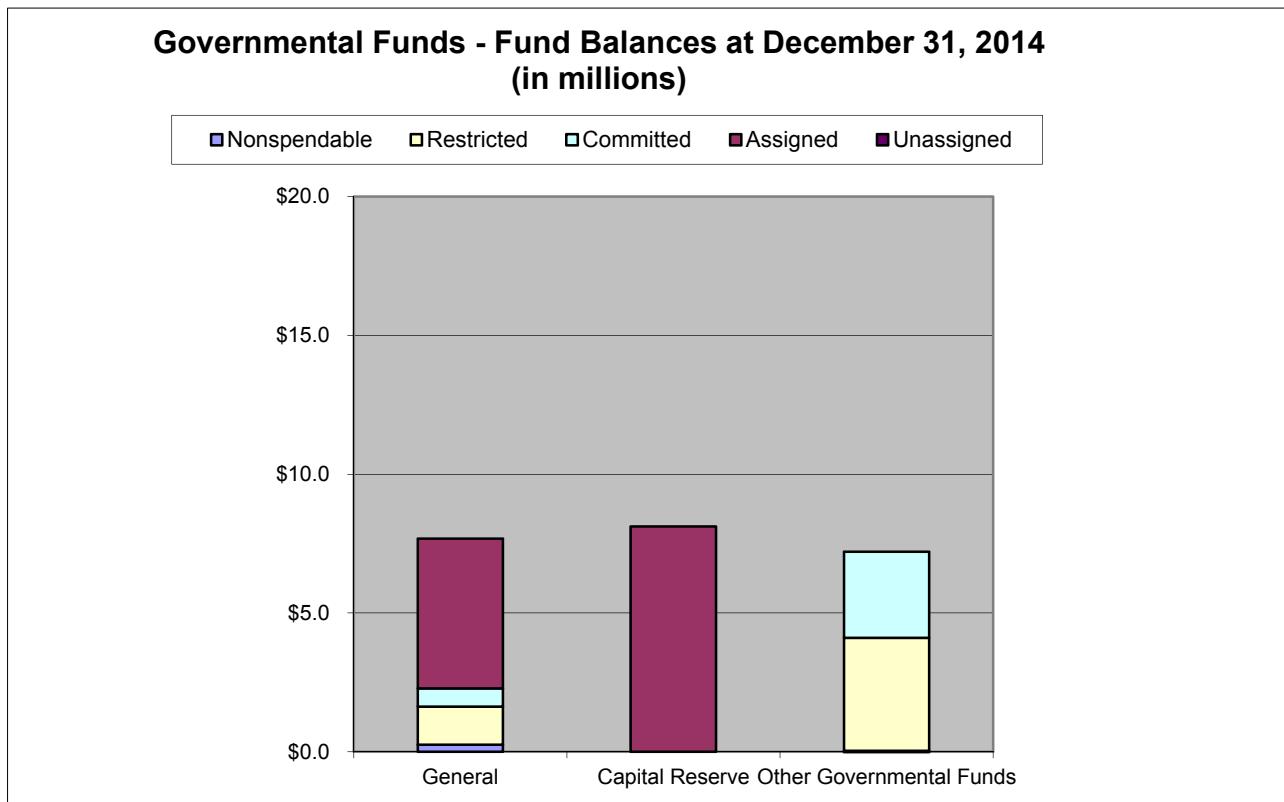

The majority of revenues and expenditures occurred in the General Fund, Health Services Block Grant Fund, and Children & Youth Services Fund in 2014. Under the General Fund, revenue from taxes amounted to \$42.0 million. The Health Services Block Grant Fund and Children & Youth Services Fund received \$9.3 million and \$9.8 million, respectively, in base allocation and grants.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Governmental Funds – Fund Balances

The following chart reflects the Governmental Funds fund balances as of December 31, 2014:

The General Fund fund balance at December 31, 2014, was \$7.7 million, with \$4.4 million assigned for the 2015 budget. The Capital Reserve Fund fund balance at December 31, 2014, was \$8.1 million and was assigned for capital projects. This significant increase from approximately \$6,000 in Capital Reserve Fund fund balance at December 31, 2013, is attributable to a transfer from the sale of Sunnyview Nursing and Rehabilitation Center, which is to be used for capital projects. The Other Governmental Funds fund balance increased from \$3.0 million at December 31, 2013, to \$7.2 million at December 31, 2014. This increase was primarily attributable to a \$3.1 million transfer from the General Fund to the Sinking Fund, which represented the 2014 cash flow savings achieved by refunding the 2004 Bond Series. The remaining increase can be attributed to increases in the amount of Act 13 Unconventional Gas Well Fund impact fees received by the County in 2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS

General Fund Budgetary Highlights

The fund balance in the General Fund for the year ended 2014 decreased by approximately \$1.3 million from the 2013 level. At December 31, 2014, the General Fund fund balance was approximately \$7.7 million, of which \$0.3 million was nonspendable, \$1.4 million was restricted for operating reserve and agricultural easements, \$0.7 million was committed for worker's compensation, and \$5.4 million was assigned for worker's compensation, the 2015 budget, and the Conservation District.

There were no significant differences in the General Fund between the original and final budget.

Differences worth noting in the General Fund final budget compared to the actual amounts are as follows:

- Intergovernmental revenue exceeded budget by approximately \$154,000. Much of this is attributable to increases in criminal justice related grants and reimbursements.
- Charges for services exceeded budget by approximately \$618,000. Much of this is attributable to increased commissions and fees collected in the Recorder of Deeds and Register of Wills/Clerk of Orphan's Court offices, as well as higher-than-expected revenues received from housing state and federal inmates at the County Prison.
- Other revenue was under budget by approximately \$504,000. This is primarily attributable to the fact that royalties generated in 2014 by the oil and gas lease on the County's Lassinger Unit came in lower than budgeted. The lease only began producing royalties in late 2013, and actual revenue for 2014 did not keep pace with projections that were based on those first few months of production.
- General government administration expenditures were under budget by approximately \$1.3 million. This is primarily attributable to lower-than-budgeted personnel costs in a number of departments; tax collector commissions coming in under budget; expenses for judicial sales being lower than anticipated; and various other expenses coming under budget, including audit costs, utilities, contracted services, advertising, postage, staff travel, and materials/supplies.

MANAGEMENT'S DISCUSSION AND ANALYSIS

- General government judicial expenditures were under budget by approximately \$442,000. This is primarily attributable to tipstaff and other court personnel expenses coming in under budget, as well as savings in a number of areas, including equipment maintenance and rental, legal publications, jury expenses, staff travel, and a budgeted contingency that was not expended.
- Human services expenditures were under budget by approximately \$325,000. This primarily results from the fact that costs related to the sale of Sunnyview Nursing and Rehabilitation Center, which were budgeted at \$264,000, were paid instead out of the proceeds of the sale. Those costs are reflected in the calculation of the gain on disposal in the Proprietary Fund Statement of Revenues, Expenses, and Changes in Net Position.
- Culture and recreation expenditures were under budget by approximately \$103,000, primarily due to lower-than-budgeted personnel costs and various other expenses coming under budget, including utilities and materials/supplies.
- Conservation and development expenditures were under budget by approximately \$137,000, primarily due to lower-than-budgeted expenses related to farmland preservation.
- Other expenditures were under budget by approximately \$2.4 million. The County budgeted for contingency, unanticipated legal expenses, and unemployment expenses in the amount of \$2.54 million. During 2014, the County had no significant contingency expenses, and unanticipated legal and unemployment expenses were under budget.
- Debt service expenditures were under budget by approximately \$2.7 million primarily due to the fact that approximately \$3.7 million was budgeted for the annual principal and interest payments for the 2004 Bond Series, however only one interest payment of approximately \$832,000 was made on the bonds before they were current refunded in May 2014 through the County's Capital Reserve Fund.

Capital Assets – Governmental Activities: The County's investment in capital assets and infrastructure for its governmental activities as of December 31, 2014, amounts to approximately \$76 million (net of accumulated depreciation/amortization). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads, and bridges. The increase in capital assets is attributable mainly to land acquisition and construction of the Magisterial District Justice office in Cranberry Township and construction in progress of the Government Center Annex.

COUNTY OF BUTLER, PENNSYLVANIA

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

DECEMBER 31, 2014

Total Fund Balance - Governmental Funds	\$ 23,015,800
--	---------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets including construction in progress used in governmental activities are not current financial resources and therefore, are not reported as assets in governmental funds.

75,978,900

Property taxes receivable and other revenues will be collected in the future, but are not available to pay for the current period's expenditures and therefore, are treated as either deferred inflows or unearned revenue in the funds.

8,762,455

Governmental funds report the effect of premiums, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

(1,788,204)

Long-term liabilities, including notes and bonds payable, are not due and payable in the current period and therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:

Accrued workmen's compensation	\$ (655,634)
Accrued compensated absences	(2,359,208)
Bonds payable	(43,775,000)
Capital lease	(203,520)
Accrued interest on debt	<u>(818,652)</u>
	<u>(47,812,014)</u>

Total Net Position - Governmental Activities	<u><u>\$ 58,156,937</u></u>

COUNTY OF BUTLER, PENNSYLVANIA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED DECEMBER 31, 2014

Net Change in Fund Balance - Governmental Funds	\$ 10,979,256
--	---------------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period:

Capital outlays	\$ 8,321,604
Less: depreciation expense	<u>3,537,422</u>
	4,784,182

The net effect of various transactions involving capital assets (sales, demolition, etc.) (8,676)

Some taxes and other revenues will not be collected for several months after the County's year-end; they are not considered as "available" revenues in the governmental funds. Deferred inflows changed by this amount during the year.

501,088

The issuance of long-term obligations (e.g. notes and bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term obligations and related items.

123,225

Interest on long-term obligations in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. The difference in interest accrued in the statement of activities and the amount due is shown here.

101,614

In the statement of activities, certain operating expenses - accumulated employee benefits (workmen's compensation and sick days) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

A. BUTLER COUNTY – PRIMARY GOVERNMENT

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – PRIMARY GOVERNMENT

Reporting Entity

The County of Butler (County), located in southwestern Pennsylvania thirty-five miles north of the City of Pittsburgh, is a fourth class County, originally chartered on March 12, 1800. The County operates under an elected three member Board of Commissioners (County Commissioners). The County provides services in many areas to its residents, including various general government services, public safety, human services, and health and welfare.

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

Component Units

The criteria used by the County to evaluate the possible inclusion of related entities within its reporting entity are financial accountability and the nature and significance of the relationship. In determining financial accountability in a given case, the County reviews the applicability of the following criteria:

The County is financially accountable for:

1. Organizations that make up its legal entity.
2. Legally separate organizations if the County Commissioners appoint a voting majority of the organization's governing body and the County is able to impose its will on the organization or if there is a potential for the organization to provide specific financial benefits to, or impose specific burdens on the County as defined below:

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

- a. Impose its Will - If the County can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization.
- b. Financial Benefit or Burden – If the County (1) is entitled to the organization's resources, (2) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide support to, the organization, or (3) is obligated in some manner for the debt of the organization.
3. Organizations that are fiscally dependent on the County. Fiscal dependency is established if the organization is unable to adopt its own budget, levy taxes or set rates or charges, or issue bonded debt without approval of the County.

The following separately administered organizations meet the criteria for inclusion in the County's reporting entity as discretely presented component units.

Butler County Community College

The Butler County Community College's (BCCC) fifteen trustees are appointed by the County Commissioners and one Commissioner serves as an ex-officio member of BCCC's Board of trustees. Under the applicable Commonwealth of Pennsylvania statute, the Commonwealth of Pennsylvania and the County are each obligated to provide up to one-third of BCCC's operating budget and one-half of its capital and debt service requirements. In addition, the County's approval is required for the issuance of any bonded debt by BCCC as the County is legally committed for a portion of the repayment of such debt. Accordingly, the County is financially accountable for BCCC. BCCC's fiscal year end is June 30th. Separately issued audited financial statements are available through BCCC's business office: 107 College Drive, Butler, PA 16002.

Butler County Airport Authority

The Butler County Airport Authority (Authority) was created to operate the Butler County Airport. The Authority's seven-member Board is appointed by the County Commissioners and one Commissioner serves as an advisory member of the Board. The Authority's Board operates autonomously from the County and is responsible for the designation of management. The Authority is fiscally dependent on the County as bonded debt cannot be issued without the guarantee of the County. The County is financially accountable for the Authority.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

Separately issued audited financial statements are available through the Authority's administrative office: 475 Airport Road, Butler, PA 16002.

Related Organizations

Following are organizations, which have the majority of their governing Board appointed by the County Commissioners, without the County being financially accountable for the organization:

Butler County City Connoquenessing Creek Flood Control Authority

The Butler County City Connoquenessing Creek Flood Control Authority (Authority) is a non-operating Authority with limited activity.

Butler County Housing Authority

The Butler County Housing Authority (Authority) administers HUD's Section 8 housing program for the County and is funded through federal grants and other revenues. The Authority's Board is appointed for five year staggered terms by the County and operates independently of any ongoing involvement of the County Commissioners. The County Commissioners must approve the concept of any major capital expansion project, but are not financially accountable for the Authority.

Butler County Industrial Development Authority

The Butler County Industrial Development Authority (Authority) issues low interest, tax-exempt bonds, and uses the proceeds to finance projects intended to stimulate economic growth in the County. The Authority's seven-member Board is appointed by the County and the Authority operates independently of any ongoing involvement of the County. The County Commissioners must approve the concept of any major bond issue of the Authority but only in relation to the benefit to the County of the projects that will be funded through the debt proceeds. The County has no legal responsibility for Authority debt.

Butler County Hospital Authority

The Butler County Hospital Authority (Authority) issues low interest, tax-exempt bonds to enable capital financing for hospitals and nursing homes. Five of the six members of the Authority's Board are appointed by the County. The sixth

member of the Board is the Authority's president who is appointed by the other Board members. The Authority operates independently of any ongoing involvement of the County. The County Commissioners must approve the concept of any major project of the Authority, but are not financially accountable for the Authority. The County has no legal responsibility for Authority debt.

The Butler County Redevelopment Authority

The Butler County Redevelopment Authority (Authority) secures federal and state monies for public housing projects. All five Board members are appointed by the County. The Authority operates independently of any ongoing involvement of the County.

Butler County General Authority

The Butler County General Authority (Authority) was organized to provide local municipalities, school districts, and other governmental entities the ability to consolidate new debt issues to realize some potential cost savings from lower debt issuance costs. All five Board members are appointed by the County. The Authority operates independently of any ongoing involvement of the County.

Other Organizations

Following are organizations, which were evaluated and did not meet the criteria as component units, related organizations, or joint ventures:

Butler County Federated Library

The Butler County Federated Library (Federated Library) system consists of seven libraries in Butler County. Each of the libraries recommends a candidate for the Board, subject to approval by the County Commissioners. The system's manager is appointed by the Federated Library Board. Individual Library Boards appoint management of their respective libraries. Library operations are funded primarily by state grants and user fines and donations.

Tri-County Workforce Investment Board

The Tri-County Workforce Investment Board (WIB) is responsible for the operation of the WIB and Career Track programs for Armstrong, Indiana, and Butler Counties. The WIB's operations are financed by federal government

COUNTY OF BUTLER, PENNSYLVANIA

grants. While the three Counties are responsible for any disallowed costs of the WIB, annual operating contributions are not required. The WIB's Board is appointed one-third by each of the participating counties. An executive committee composed of one commissioner from each County may be overruled by the WIB's Board.

Butler County Tourism and Convention Bureau

The Butler County Tourism and Convention Bureau is responsible for planning and promoting programs designed to stimulate and increase the volume of tourist, visitor, vacation-convention business within the County and to exercise all powers incident to and necessary thereto.

Southwest Behavioral Health Management, Inc.

Southwest Behavioral Health Management, Inc. is a private, non-profit corporation incorporated for the purpose of monitoring the behavioral health services of the Health Choices program. Southwest Behavioral Health Management, Inc. operates primarily under funding administered through six counties, one of which is the County that jointly formed the corporation.

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the County as a whole excluding fiduciary activities such as the pension plan and agency funds. The primary government and component units are presented separately within the financial statements with the focus on the primary government. The statements distinguish governmental activities, which are generally supported by taxes and intergovernmental grants, from business-type activities, which rely to a significant extent on fees charged to external customers. Likewise, the primary government is reported separately from its legally separate component units for which the primary government is financially accountable.

Separate financial statements are provided for governmental funds, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The financial statements of the County are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the authoritative standard-setting body for the establishment of governmental accounting and financial reporting principles.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity. Proprietary and pension fund financial statements and financial statements of the County's component units also report using this same focus and basis of accounting. Agency funds are also reported on the accrual basis; however, they have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue when all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The availability period used for revenue recognition under the modified accrual basis of accounting is zero days. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

In general, property taxes, franchise taxes, intergovernmental revenues, investment income, and other revenues associated with the current fiscal period are considered to be measurable and available only when cash is received by the County or its agent.

The government reports the following major governmental funds:

The *General Fund* is the principal operating fund of the County which is used to account for all financial transactions except those required to be accounted for in other funds.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

The *Mental Health/Early Intervention/Intellectual Disabilities Fund* is used to account for the proceeds of revenue received from various federal, state, and county sources. This fund is restricted for the provision of specified social services to eligible recipients.

The *Health Services Block Grant Fund* is used to account for the proceeds of revenue received from various federal, state, and county sources. This fund is restricted for the provision of specified social services to eligible recipients.

The *Children & Youth Services Fund* is used to account for the proceeds of revenue received from various federal, state, and county sources. This fund is restricted for the provision of specified social services to eligible recipients.

The *Capital Reserve Fund* accounts for financial resources to acquire or construct assets of a permanent nature.

The government reports the following major proprietary funds:

The *Sunnyview Nursing and Rehabilitation Center Fund* is a nursing home funded through a combination of third party insurance, federal reimbursement, and County contributions. During 2014, the County sold the Sunnyview Nursing and Rehabilitation Center in the amount of \$20.4 million. The assets and operations were transferred on May 17, 2014. See further discussion at Note 14.

The *Health Choices Fund* is used to account for medical expenses of members participating in the Health Choices Program, which are funded by state revenue. This fund is shown as a proprietary fund per instructions from the Pennsylvania Department of Public Welfare, based on the agreement with Value Behavioral Health of Pennsylvania and the County.

The *Emergency Communications 911 and Wireless 911 Fund* are used to account for the County's emergency communication systems, which are funded by phone user charges, state grants, and County contributions.

Additionally, the government reports the following fund types:

The *Pension Trust Fund* accounts for the activities of the Employees Retirement System, which accumulates resources for pension benefit payments to qualified employees.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

The *Agency Funds* are custodial in nature and do not involve measurement of results of operations. Agency funds are used to account for cash collected by elected row officers (Treasurer, Register of Wills, Prothonotary, District Justice Courts, Clerk of Courts, Recorder of Deeds, and Sheriff) and other County offices that are subsequently disbursed to other governments or individuals for whom it was collected.

Revenue Classification on Government-Wide Statement of Activities

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Amounts reported as program revenues include 1) charges to customers for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are also reported as general revenues rather than as program revenues.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing goods and services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise fund are charges to customers for sales and services. Sunnyview Nursing and Rehabilitation Center and Health Choices also recognize as operating revenue reimbursement received from the Commonwealth of Pennsylvania for services provided to patients. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Sunnyview Nursing and Rehabilitation Center's patient revenue is reported at the estimated net realizable amounts from the residents and third-party payers. Revenue under third-party payer agreements is subject to audit and retroactive adjustment. Provisions for estimated third-party payer settlements are provided in the period the related services are rendered. Differences between the estimated amounts accrued and ultimate final settlements are reported as adjustments become known.

Interfund Activity in the Government-Wide Statements

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are the yearly

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

contributions made to the component units from the County's governmental funds and transfers between governmental funds and business-type and fiduciary funds. Elimination of these contributions would distort the direct costs and program revenues reported for the various functions concerned.

Cash and Cash Equivalents

For the purposes of the cash flow statement, cash and cash equivalents include all highly liquid investments with a maturity of three months or less when purchased.

Investments

Investments for the government are stated at fair value based on current market prices.

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Inventories and Prepaid Items

Inventories used in governmental funds, principally supplies, are accounted for as expenditures when purchased. The amount of inventory at December 31, 2014 in proprietary funds is not significant.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The costs of prepaid items are recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets

Capital assets, which include land, building and building improvements, furniture and equipment, intangibles and infrastructure (e.g. roads, bridges, sidewalks, and similar

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are valued at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as constructed and placed into service. Construction in process is not depreciated until it is placed into service. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated/amortized using the straight-line method (with one-half a year's worth of depreciation/amortization taken in the first year) over the following estimated useful lives:

Buildings and improvements	10 - 50 years
Furniture and equipment	3 - 20 years
Technology software	5 - 20 years
Infrastructure	50 years

Compensated Absences

Calculation of the liability amount is determined by the appropriate vacation, sick, and lump sum payments, which would be available to employees if they would leave or retire from the County.

All accumulated vacation pay and sick pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Refunding Transactions

In accordance with applicable guidance, the excess of the reacquisition price over the net carrying amount of refunded debt is recorded as a deferred outflow of resources or deferred inflow of resources on the statement of net position and amortized as a component of interest expense over the shorter of the term of the refunding issue or refunded bonds.

Fund Balance

In the fund financial statements, governmental funds report fund balance in categories based on the level of restriction placed upon the funds. These levels are as follows:

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

- Nonspendable – This category represents funds that are not in spendable form and includes prepaid expenditures.
- Restricted – This category represents funds that are limited in use due to constraints on purpose and circumstances of spending that are legally enforceable by outside parties. This category includes funds that are legally restricted for operating reserve, agriculture easements, Act 13, roads and bridges, records improvement and automation, central booking and court restitution, Conservation District, Area Agency on Aging Program, and capital purchases.
- Committed – This category represents funds that are limited in use due to constraints on purpose and circumstances of spending imposed by the County's highest level of decision-making authority. The County Commissioners are the highest level of decision-making authority for the County and can make such commitment via a resolution prior to the end of the fiscal year. A commitment can only be modified or removed by an equal action of the County Commissioners. The County has committed funds to be used for workmen's compensation and debt service.
- Assigned – This category represents intentions of the County to use the funds for specific purposes but do not meet the criteria to be classified as committed. The County Commissioners have, by resolution, authorized the Chief Clerk or his/her designee to assign fund balance. This category includes amounts set aside for workmen's compensation, 2015 budget, Conservation District, and capital purchases.
- Unassigned – This category includes the residual classification for the County's General Fund and includes all spendable amounts not contained in other classifications.

The County's policy is to use funds in the order of the most restrictive to the least restrictive. When the components of unrestricted fund balance can be used for the same purpose, committed fund balance is used first, followed by assigned fund balance. Unassigned fund balance is applied last.

Net Position

Accounting standards requires the classification of net position into these components – net investment in capital assets; restricted; and unrestricted. These classifications are defined below:

- Net investment in capital assets – The net investment in capital assets component of net position consists of capital assets net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflows of resources attributable to the unspent amount is not included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflow of resources is included in the same net position component (restricted or unrestricted) as the unspent amount.
- Restricted – The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported. Two categories are used to further describe restricted net position:
 - Expendable – can be expended in compliance with the external restriction
 - Nonexpendable – net position that is required to be retained in perpetuity

Expendable restricted net position at December 31, 2014 of the County consists of: \$1,221,673 for operating reserve, \$154,659 for agricultural easements, \$2,718,781 for Act 13, \$1,271,491 for roads and bridges, \$635,401 for records improvement and automation, \$181,339 for central booking and court restitution, \$254,547 for the Conservation District, \$305,367 for the

Area Agency on Aging Program, \$196,669 for capital purchases, and \$1,331,085 for emergency services.

- Unrestricted – The unrestricted component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

Allocation of Indirect Expenses

The County allocates indirect expenses, primarily comprised of central governmental services, to operating functions and programs benefiting from those services. Central services include overall County management, centralized budgetary formulation and oversight, accounting, financial reporting, personnel, purchasing, cash management, and other central administrative services. Allocations are charged to programs based on use of central services determined by various allocation methodologies. These charges are included in direct expenses in the statement of activities.

Budgets and Budgetary Accounting

Annual budgets are required to be adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General Fund. The budgetary controls for all other governmental funds are maintained through enforcement of related grant provisions or debt indentures.

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Starting in August and September, the Budget Director prepares a budget package that is sent to each department and row officer. The department or agency heads use this budget package to develop financial projections for their programs for the ensuing year, which are then submitted to the budget staff.
2. The budget staff enters this information into budget spreadsheets. The Chief Clerk then reviews the information that is obtained, accumulates questions,

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

and schedules a meeting to discuss the proposed budget with the department heads and row officers.

3. Once the budget staff is satisfied with the department's budget numbers, the budget is presented in preliminary form to the County Commissioners. The County Commissioners can interview department or agency heads to discuss their budgets if deemed necessary.
4. Upon consolidation of the department and agency expenditure projections, the County Commissioners ascertain the most viable method of financing them.
5. Subsequently, the Budget Director assembles the preliminary projections of revenues and expenditures into a final budget incorporating any revisions or adjustments resulting from the aforementioned County Commissioners' review.
6. By early December, the final budget is presented to the County Commissioners. Pursuant to budgetary requirements as set forth in the County Code, public notice is given that the final budget is available for inspection for a period of 20 days.
7. After the 20-day inspection period, but no later than December 31, the County Commissioners adopt the final budget by enacting an appropriate resolution.

Legally, management of the County may make budgetary transfers between departments without approval by the County Commissioners as long as overall fund expenditures are not affected. Department heads may make budgetary transfers within their own department as long as overall department expenditures are not affected. However, as a matter of control all such transfers are subsequently ratified by the County Commissioners. The County Commissioners may at any time, by resolution, make supplemental appropriations for any lawful purpose from any funds on hand or estimated to be received within the fiscal year and not otherwise appropriated, including the proceeds of any borrowing now or hereafter authorized by law. The County Commissioners may authorize the transfer of any unencumbered balance of any appropriation item or any portion thereof. The County Commissioners must approve changes to overall appropriations at the fund level. Therefore, the legal level of budgetary responsibility is by fund.

During the year, there were no significant supplemental appropriations enacted. Budget transfers did occur between accounts within funds. The statement of

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

revenues, expenditures, and changes in fund balance - budget and actual, reflects the originally adopted budget and the originally adopted budget adjusted for budget transfers. Appropriations lapse at the close of the fiscal year to the extent that they have not been expended.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Adopted Pronouncements

GASB Statement No. 67, "*Financial Reporting for Pension Plans*," effective for periods beginning after June 15, 2013. The objective of this statement is to improve financial reporting by state and local governmental pension plans.

GASB Statement No. 69, "*Government Combinations and Disposals of Government Operations*," effective for periods beginning after December 15, 2013. This statement provides new accounting and financial reporting standards for government mergers and acquisitions and for government operations that have been transferred or sold.

GASB Statement No. 70, "*Accounting and Financial Reporting for Non-exchange Financial Guarantees*," effective for periods beginning after June 15, 2013. This statement specifies the information required to be disclosed by governments that extend non-exchange financial guarantees, and requires a government that extends a non-exchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee.

Pending Pronouncements

GASB has issued Statement No. 68, "*Accounting and Financial Reporting for Pensions*," and Statement No. 71, "*Pension Transition for Contributions Made Subsequent to the Measurement Date*," effective for fiscal years beginning after June 15, 2014. These statements revise existing guidance for the financial reports of most pension plans, and establish new financial reporting requirements for most governments that provide their employees with pension benefits.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

GASB has also issued Statement No. 72, *"Fair Value Measurement and Application,"* effective for fiscal years beginning after June 15, 2015. This statement addresses accounting and financial reporting issues related to fair value measurements.

Management has not yet determined the impact of these statements on the County's financial statements.

2. DEPOSITS AND INVESTMENTS

Pennsylvania statutes provide for investment of governmental funds into certain authorized investment types including U.S. Treasury bills, other short-term U.S. and Pennsylvania government obligations, insured or collateralized time deposits, and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of governmental funds for investment purposes.

In addition to the investments authorized for governmental funds, fiduciary fund investments may also be made in corporate stocks and bonds and other investments consistent with sound business practice.

The investment policy of the County adheres to applicable state statutes, including Act 72 and the County Code of Pennsylvania. The investment policy of the County permits the following types of investments:

- United States Treasury bills.
- Short-term obligations of the United States government or its agents or instrumentalities.
- Deposits in savings or time accounts or share accounts of financial institutions having their principal place of business in the state of Pennsylvania and are insured by the FDIC, FSLIC, NCUSIF, PDIC, or PSAIC and, for any amounts above the insured maximum, are collateralized as provided by law.
- Obligations of the United States of America, the Commonwealth of Pennsylvania, or any political subdivision, or any of its respective agencies or instrumentalities, which are backed by the full faith and credit of the respective government unit.
- Shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933,

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

provided that the only investments of that company are in the authorized investments listed above.

- Certificates of deposit purchased from institutions having their principal place of business in the State of Pennsylvania and are insured by the FDIC, FSLIC, NCUSIF, PDIC, or PSAIC and, for any amounts above the insured maximum, are collateralized by a pledge or assignment of assets of the institution.

There were no deposit or investment transactions during the year that were in violation of either the statutes or the policy of the County.

Deposits

The following is a description of the County's deposit risks:

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. The County does not have a formal policy for custodial credit risk. Of the bank balance of \$32,423,061 at December 31, 2014, \$1,295,196 was covered by the Federal Deposit Insurance Corporation (FDIC), and the remaining amount was collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution's name. These deposits include amounts with a book balance as of December 31, 2014 of \$27,220,551, which are reported as cash and cash equivalents in the statement of net position.

Agency Fund

The County maintains bank accounts for the elected row officers and other County offices. The balance of these accounts is reflected in the statement of fiduciary net position. The carrying amount of deposits for the row offices and other County offices was \$3,125,202 and the bank balance was \$3,559,391. Of the bank balance, \$819,113 was covered by the FDIC. The remaining balance was collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and has the collateral held by an approved custodian in the institution's name.

Investments

As of December 31, 2014, the County held the following investment balances in the governmental funds:

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

	Fair Value	Maturity in Years	
		Less than 1 year	1-5 years
Bond mutual funds	\$ 1,113,079	\$ 1,113,079	\$ -
Total securities with maturities	1,113,079	\$ 1,113,079	\$ -
Money market funds	<u>3,415,071</u>		
Total investments reported on the statement of net position	<u>\$ 4,528,150</u>		

The fair value of the County's investments is the same as their carrying amount.

Interest Rate Risk – The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Generally, the County's policy regarding maximum maturities is to match its investments' maturities with anticipated cash flow requirements.

Custodial Credit Risk – Custodial credit risk is the risk that in the event of the failure of the entity in which the investments are held, the County will not be able to recover the value of its investments or collateral securities that are in the possession of the outside entity. The County does not have a formal investment policy for custodial credit risk. The County's investments in mutual funds cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form. As of December 31, 2014, the County's investment balance, excluding mutual funds, of \$3,415,071 (bank and book balance) was exposed to custodial credit risk.

Credit Risk – The risk that an issuer or other counterparty to an investment will not fulfill its obligations is called credit risk. The County has no formal investment policy that would limit its investment choices based on credit ratings by nationally recognized statistical rating organizations. As of December 31, 2014, all of the County's investments were not rated. The County's investments are in mutual funds and money markets. Money market investments include short-term U.S. Treasury and agency obligations, certificates of deposit, repurchase agreements, and commercial paper.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

Concentration of Credit Risk – The County places no limit on the amount the County may invest in any one issuer. The County has no investments in excess of 5% with the same issuer.

Pension Trust Fund – Deposits

The pension trust fund deposits are held separately from those of other County funds. The pension trust fund cash and cash equivalents include checking and money market deposits (book value of \$1,136,309 at December 31, 2014) and accrued income (book value of \$147,750 at December 31, 2014). The bank balance of the checking and money market deposits as of December 31, 2014 was \$1,426,306. Of the bank balance, \$250,000 was covered by the Federal Deposit Insurance Corporation. The remaining balance was collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and has the collateral held by an approved custodian in the institution's name.

Pension Trust Fund – Investments

The pension trust fund investments are held separately from those of other County funds. Investments of the plan are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price. The County maintains a pension trust fund investment policy that summarizes the investment philosophy of the County and establishes investment guidelines and performance objectives for the pension trust fund.

As of December 31, 2014, the County had the following investments in its pension trust fund:

The following is a description of the pension trust fund's investment risks:

Credit risk - The risk that an issuer or other counterparty to an investment will not fulfill its obligations is called credit risk. The pension trust fund investment policy relating to credit risk is as follows:

Equity issues – There are no qualitative guidelines suggested with regard to equity ratings, rankings, etc., except that prudent standards should be developed and maintained by the investment managers. Convertible bonds will be considered as an equity investment and must be rated investment grade (Baa/BBB) or better by at least one crediting service, Moody's Investment Service (Moody's) or Standard & Poor's (S&P). Specific constraints include the avoidance of restricted issues, which have limited marketability, excluding SEC Rule 144A securities.

Fixed-income securities – Domestic bonds held in the core fixed-income portfolios must be rated investment grade (Baa/BBB) or better by at least one crediting rating service, Moody's or S&P. This guideline is intended to give the core fixed-income investment manager sufficient latitude to periodically take advantage of bond swaps. SEC Rule 144A securities considered by the investment managers to be within policy guidelines are limited to 10% of the fixed-income portfolio. Core-fixed-income manager's portfolios should

normally maintain an average market-weighted quality of 3.0 based on the following scale:

U.S. Government and Agencies	5.0
Aaa/AAA Bonds	4.0
Aa/AA Bonds	3.0
A/A Bonds	2.0
Baa/BBB Bonds	1.0

Cash equivalent vehicles - If commercial paper is used for short-term investments, it must be of high quality, rated at least the equivalent of A-1 or P-1 by Moody's or S&P.

As of December 31, 2014, the pension trust fund's investments in debt securities have received the following ratings from Moody's:

Investment Type	Moody's Rating	Percentage of Debt Securities
Bonds	AAA	66%
Bonds	AA	2%
Bonds	A	6%
Bonds	BBB	8%
Bonds	BB	11%
Bonds	B	6%
Bonds	Below B	1%
		<hr/> <hr/> 100%

Custodial Credit Risk - For deposits and investments, custodial credit risk is the risk that in the event of the failure of the bank or counterparty, the pension trust funds will not be able to recover the value of their deposits or investments or collateral securities that are in the possession of an outside entity. The pension trust fund does not have a formal deposit or investment policy for custodial credit risk. The County's investments in mutual funds cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form. Money market investments include short-term U.S. Treasury and agency obligations, certificates of deposits, and commercial paper. As of December 31, 2014, the County's money markets balance of \$325,621 included in investments (bank and book balance) was exposed to custodial credit risk.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

Concentration of Credit Risk – The County requires that no more than five percent of a manager's equity portfolio may be invested in any one company (valued at cost), and no more than 10% of a manager's equity portfolio may be invested in any one company (valued at market). In addition, investments may not exceed the benchmark index by 20% of the GICS economic sector allocation of the appropriate benchmark. In addition, except for U.S. Treasury and Agency obligations, a manager's fixed-income portfolio may not exceed more than 10% (valued at market) of a given domestic issuer. There were no investments in the pension trust fund that constituted more than five percent of the plan assets available for benefits at December 31, 2014. In addition, the plan did not have any investment transactions with related parties during the year.

Interest Rate Risk – The maturities of the debt securities, as a means of managing its investment exposure to fair value losses arising from increases in interest rates, are at the discretion of the investment managers. However, the County's pension investment policy states that the effective duration of the fixed-income managers should be within 20% of the LB G/C Intermediate Index.

Foreign Currency Risk – The risk that changes in exchange rates will adversely affect the fair value of an investment is foreign currency risk. The County has no formal policy relating to foreign currency risk. The County's investment policy allows for investments in international equities ranging from 7-13% of the portfolio with a target of 10%. International securities may include: equity alternatives, common stock listed on a recognized security exchange, OTC Common Stock, American Depository Receipts (ADRs), European Depository Receipts (EDRs), Convertible bonds, preferred stock, non-voting stock if the risk/return characteristics are favorable versus the underlying common equity, and currency hedging. At December 31, 2014, the County had \$21,468,164 invested in international equity mutual funds and did not hold any material foreign currency.

4. REAL ESTATE TAXES

Real estate taxes attach as an enforceable lien on property as of January 1 and are levied on March 1. These taxes are billed by the County and collected by elected tax collectors. Taxes paid through April 30 are reduced by a 2% discount. Amounts paid after June 30 are assessed a 10% penalty. The County collects delinquent real estate taxes on behalf of itself and other taxing authorities.

The County is permitted by the County Code of Pennsylvania to levy real estate taxes up to 25 mills on every dollar of assessed valuation for general County purposes and the rate of taxation for payment of interest and principal on any indebtedness shall be unlimited. Effective January 1, 2010, assessed values are computed at 100% of estimated 1969 valuations. For 2014, County real estate taxes were levied at the rate of 24.628 mills on assessed valuation. Of the total millage rate of 24.628 mills, 20.688 mills are allocated for general purposes, and 3.94 mills for debt service. Total assessed valuation for non-exempt properties in 2014 was approximately \$1.72 billion.

approximately \$14.5 million of sale proceeds to the Capital Reserve Fund to be used for capital projects.

7. BUTLER COUNTY EMPLOYEES' RETIREMENT SYSTEM

Plan Description

The Butler County Employees' Retirement System (plan) is a single employer, defined benefit pension plan governed by the County Pension Law Act 96 of 1971 (Act), as amended, enacted by the General Assembly of the Commonwealth of Pennsylvania. The plan is administered by the Butler County Employees' Retirement Board (Retirement Board). In accordance with the Act, the Retirement Board consists of five members, including the three elected County Commissioners, the County Controller, and the County Treasurer. Plan provisions and contribution requirements are established and may be amended by the General Assembly of the Commonwealth of Pennsylvania. The activity of the plan is reported as the Employees' Retirement Fund in the accompanying financial statements. Separate plan financial statements are not available.

All full-time County employees become plan participants immediately upon becoming an employee. Membership in the plan is optional for elected officials. The plan requires each member to contribute a percentage of their salary to the plan. The plan provides retirement, disability, and death benefits to plan members and their beneficiaries.

For the 2014 membership period, plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	475
Inactive plan members entitled to but not yet receiving benefits	53
Active plan members:	
Vested	518
Nonvested	266
Total plan members	<u>1,312</u>

Summary of Significant Accounting Policies

Financial information of the County plan is presented on the accrual basis of accounting. Plan member contributions are recognized in the period in which the

COUNTY OF BUTLER, PENNSYLVANIA

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

contributions are due. Employer contributions to the plan are recognized when due as required by the Act. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investments of the plan are reported at fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Real estate assets are reported at fair value utilizing an income approach to valuation. By contract, an independent appraisal is obtained once every year to determine the fair market value of the real estate assets.

Benefits Provided

Retirement Benefit – A participant is entitled to begin receiving retirement benefits at age 60 or after completing 20 years of service and attaining age 55. A participant is eligible for voluntary early retirement upon completion of 20 years of service and involuntary retirement upon completion of eight years of service. For participants hired prior to April 1, 2009, the scheduled monthly retirement benefit is 2.500% of the participant's final average salary multiplied by years of credited service on the 1/40 Class plus a monthly annuity based on the actuarial equivalent of the member's accumulated contribution with credited interest. For participants hired on or after April 1, 2009, the scheduled monthly retirement benefit is 1.667% of the participant's final average salary multiplied by years of credited service on the 1/60 Class plus a monthly annuity based on the actuarial equivalent of the member's accumulated contribution with credited interest. A member may elect to receive the actuarial equivalent of his retirement benefit as a full cash refund annuity (Option One) or a reduced joint and survivor pension payable for the remainder of his life with either 100% or 50% of the member's pension continuing after death to the designated beneficiary. A member may also elect to receive, in one payment, the full amount of his accumulated deductions and continue to receive the annuity provided by the County.

Disability Benefit – All participants are eligible for disability benefits after five years of service if disabled while in service and unable to continue as a County employee. The scheduled benefit is a total monthly pension commencing on the last day of the month following disability retirement equal to 25% of the participant's final average salary at time of retirement. Such total monthly pension shall include the monthly disability that is actuarially equivalent to the member's accumulated contributions at retirement.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

Death Benefit – If a participant’s death occurs after having attained age 60 or having completed ten years of credited service, the beneficiary will receive a lump sum equal to the actuarially determined present value of the benefits calculated above based on the member’s final average salary and credited service at time of death plus the member’s accumulated contributions with interest at time of death. If a participant’s death occurs after retirement, the beneficiary will receive survivor benefits, if any, in accordance with the form under which benefits were being paid to the member. In any event, the total amount of benefits paid to the deceased member and beneficiary must, at least, equal the member’s accumulated contributions with interest.

Cost of Living Adjustments – On an ad hoc basis, cost-of-living adjustments must be reviewed at least once every three years by the Retirement Board. The adjustment, should the Retirement Board elect to give one, is a percentage of the change in the Consumer Price Index (CPI).

Contributions and Funding Policy

The plan funding policy provides for periodic employer contributions at actuarially determined rates, that expressed as a percentage of annual covered payroll, are sufficient to accumulate assets to pay benefits when due. Level percentage of payroll employer contribution rates are determined using the entry age normal funding method and the same actuarial assumptions is used to calculate the net pension liability.

As a condition of participation, employees are to contribute 9% to 19% (currently 9%) of their salary as stipulated in the Act. Interest is credited to employee accounts each year at an annual rate of 5.5% as voted upon by the Retirement Board.

Administrative expenses generally are to be paid from the County’s General Fund and not from plan assets. However, administrative expenses may from year to year be paid from the plan, unless it is determined by the actuary that such payment will impair the actuarial soundness of the plan.

In 2014, the County’s annual required contribution to the plan was \$6,152,213 as determined by the January 1, 2014 actuarial valuation. The 2014 employee contributions were \$3,360,012.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

Net Pension Liability

The components of the net pension liability of the plan at December 31, 2014 were as follows:

Total pension liability	\$ 202,454,959
Plan fiduciary net position	<u>(179,990,326)</u>
Net pension liability	<u><u>\$ 22,464,633</u></u>
Plan fiduciary net position as a percentage of the total pension liability	<u><u>88.90%</u></u>

Actuarial Assumptions - The total pension liability was determined by an actuarial valuation using the following actuarial assumptions, applied to all periods in the measurement:

Actuarial valuation date	12/31/2014
Actuarial cost method	Entry Age Normal
Amortization method	Level Dollar
Remaining amortization period	21 years
Actuarial assumptions:	
Investment rate of return	7.5%
Projected salary increases	3.5%
Underlying inflation rate	3.0%
Asset valuation method	Market value adjusted for unrecognized gains and losses from prior years

Mortality rates were based on the 2013 RP Annuitant and Non-Annuitant Mortality Tables for males and females with no projected improvement.

Actuarial assumptions are based on past experience under the plan and reasonable future expectations which represent the actuary's best estimate of anticipated experience under the plan. An experience study has not been performed in the last five years.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

Investment Policy – The plan’s policies in regard to the allocation of invested assets is established and may be amended by the Retirement Board by a majority vote of its members. It is the policy of the Retirement Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes.

Long-Term Expected Rate of Return – The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The following was the asset allocation policy and best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation as of December 31, 2014:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	45-50%	5.4%
International equity	10-15%	5.5%
Fixed income	30-40%	1.3%
Real estate	0-10%	4.5%
Cash	0-5%	0.0%
	100%	

Rate of Return – The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. For the year ended December 31, 2014, the annual money-weighted rate of return on the plan investments, net of investment expense, was 8.36%.

Concentrations – There were no plan investments that constituted more than five percent of the plan’s fiduciary net position at December 31, 2014.

Discount Rate – The discount rate used to measure the total pension liability for the plan was 7.5%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the County’s contributions will be made at rates equal to the actuarially

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

determined contribution rates. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of the plan calculated using the discount rates described above, as well as what the plan's net pension liabilities would be if they were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rates:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
Net Pension Liability	\$ 39,473,833	\$ 22,464,633	\$ 1,768,890

Additional Employer Disclosures Required by GASB Statements No. 27 and 50

The information below is with regard to employer pension activity for the year ended December 31, 2014.

The plan assumptions are as follows:

Actuarial valuation date	1/1/2014
Actuarial cost method	Entry Age Normal
Asset valuation method	Greater of Market Value and Actuarial Value
Amortization method	Level Percentage of Projected Payroll - Closed
Amortization period	8 years
Actuarial assumptions:

Capital Bond Issue 2006

In July 2006, the County issued \$10,215,000 in General Obligation Bonds (2006 Bonds), of which \$4,860,000 was used to advance refund a portion of the Series of 2003 Bonds. In connection with this advance refunding, a portion of the proceeds was deposited into an irrevocable trust with an escrow agent to provide for certain debt service payments on the refunded debt. The defeased debt outstanding on the Capital Bond Issue 2003 Bonds as of December 31, 2014 is \$0. An additional \$998,269 was used to current refund a portion of the Series of 2002 Bonds.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

\$4,000,000 of the 2006 Bonds proceeds were used to fund the costs of miscellaneous capital expenditures, including providing capital for the completion of the County's prison, acquisition of voting machines, Phase 1 and 2 recreational improvements of Alameda Park, and various capital projects. The 2006 Bonds, whose last scheduled debt maturity is July 15, 2024, have interest rates that range between 4.00% and 5.00%.

Capital Bond Issue 2004

In March 2004, the County issued \$46,825,000 in General Obligation Bonds (2004 Bonds), of which \$45,309,000 was used to advance refund the majority of outstanding Series of 2003 Bonds (2003 Bonds). The defeased debt outstanding on the Capital Bond Issue 2003 Bonds as of December 31, 2014 is \$0. \$5,550,000 of the 2004 Bonds proceeds were allocated to the Emergency Communications 911 Proprietary Fund for use in the construction of a new 911 Center. The 2004 Bonds were current refunded in 2014.

Capital Bond Issue 2014

In May 2014, the County issued the Series 2014 General Obligation Bonds (2014 Bonds) in the amount of \$38,405,000. Proceeds of the bonds were used to current refund the 2004 Bonds and pay the costs related to the issuance of the 2014 Bonds. \$2,155,000 of the 2014 proceeds were allocated to the Emergency Communication 911 Proprietary Fund as a portion of the 2004 Bonds proceeds had been used for construction of the 911 Center. The 2014 Bonds, whose last scheduled debt maturity is July 15, 2026, range in interest rates from 3.00% to 5.00%.

The cash flow savings from the refunding was approximately \$3.96 million and the economic benefit from the refunding was approximately \$3.93 million.

For the governmental activities portion of the bond refunding, there was an accounting loss of \$1,431,546, which will be amortized through 2026. The unamortized portion of the loss at December 31, 2014 is reported as a deferred outflow of resources on the statement of net position.

For the business-type activities portion of the bond refunding, there was an accounting gain of \$40,324, which will be amortized through 2018. The unamortized portion of the gain at December 31, 2014 is reported as a deferred inflow of resources on the statement of net position.

The liability for compensated absences is liquidated from the governmental funds where the corresponding payroll costs for the employees are allocated. The liability for workmen's compensation is liquidated from the General Fund. The liabilities for the capital leases are liquidated from the Children & Youth Services Fund and Liquid Fuels Tax Fund, respectively.

9. SELF-INSURANCE

The County of Butler is self-insured for its workers compensation and occupational disease liability as permitted by the Pennsylvania Workers Compensation Act (the "Act"), 77 P.S. p.1 et. Seq. The County of Butler has long been granted an exemption from the necessity of insuring its liability to pay compensation under the Act, such exemption being commonly referred to as self-insured status. In order to continue to remain in self-insured status, the County secures the payment of benefits under the Act in accordance with section 501 of the Act and applicable regulations.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

On a regular basis, the Pennsylvania Department of Labor and Industry, Bureau of Workers Compensation Division, calculates the funding status of the County of Butler's Workers Compensation dedicated asset account. This dedicated asset account must meet the required asset level as prescribed by applicable regulations. The County has recently received exemption from the Department of Labor from the necessity of insuring its liability to pay compensation as provided for and subject to the Act and authorized it to operate as a self-insurer for the period of January 1, 2014 to January 1, 2015. The State has changed the beginning of the future annual self-insurance periods to January 1, the beginning of the County's fiscal year. This realignment will enable the State to monitor the filing of each renewal application.

The outstanding liability is calculated based on taking an average of the last three years' outstanding liabilities. The average calculation took into consideration any change in the number of claims between years and any change in the number of long-term claims. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

The dedicated asset account balance at December 31, 2014 of \$1,418,293 is in excess of the Department's requirements. Current claims are expensed as paid by the related fund. Workmen's compensation claims paid during 2014 were \$227,164. The liability for claims outstanding at December 31, 2014 was \$655,634.

The following represents changes in those aggregate liabilities for workmen's compensation for the years ended December 31, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Unpaid claims and claim adjustment expenses at beginning of year	\$ 685,659	\$ 726,339

10. LEASES

Mental Health Residential Facility

In December 2003, the County entered into an Enhanced-Use Lease with the U.S. Department of Veterans Affairs (Department) for approximately 1.3 acres of land in order to enable the Butler County MH/ID to construct a 16-bed mental health residential facility (Facility) on the Veterans Administration Medical Center (VAMC) grounds. The term of the lease is 50 years. The terms of the lease require the County to construct the Facility within two years of the approval of the lease; the Facility was completed in 2005. The VAMC is to have priority placement for two beds (730 bed days of care) per calendar year. The terms of the lease also require the County to establish a “funded maintenance account” on the 1st day of “lease-up” (i.e. when the first referred veteran is at the Facility) in an amount equal to \$2.00/sq ft per year for the rentable area of the facility, but not in excess of \$22,000. During the term of the lease, the County is to pay the Department for all ancillary services (actual cost of food, laundry, housekeeping, pest control) on a monthly basis. The County pays for all costs of operation. At the termination of the lease, the Facility and permanent improvements become the property of the Department.

Tier Garage

In March 2005, the County entered into a three-year lease agreement for 9,688 square feet of space for temporary housing of prisoners. The County renewed the lease for an additional five years beginning on July 1, 2008 and again on July 1, 2013 for an additional two years, at the same rate of \$10 per square foot (\$96,980 annually). As the construction of the new prison eliminated the need of the space for temporary housing of prisoners, the space will now be utilized to house the County’s Adult Probation offices. The County has the option to renew for an additional five years at the annual rental adjusted to reflect the percentage increase, if any, in the Consumer Price Index for the preceding 24-month period.

District Justice Offices

The County has leases for four of the District Justice offices, of varying amounts and terms.

Future Minimal Rental Payments

The following is a schedule, by years, of future minimum rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of December 31, 2014:

Years	Total
2015	\$ 145,986
2016	84,329
2017	86,076
2018	54,576
2019	43,729
Thereafter	<u>293,775</u>
Total minimum payments required	<u><u>\$ 708,471</u></u>

11. OIL AND GAS LEASE

In February 2011, the County entered into an agreement for the lease of land for oil and gas drilling. The terms of the lease are for a five-year period, and as long thereafter as oil or gas is produced. The lease called for an up-front payment of \$579,960 and a one-time bonus of \$116,000 totaling \$695,960, which the County received during 2011. The amount recognized as revenue during 2014 was \$115,992, with \$115,992 reported as unearned revenue on the statement of net position. Unearned revenue will be recognized into revenue in the amount of \$115,992 each year in accordance with the lease agreement. As acceptable gas is extracted from the property, the County will receive an 18% royalty of the proceeds received for all gas produced, metered and sold, less the lessor's pro-rata share of any severance or excise tax imposed by any governmental body. The amount of royalties received in 2014 was \$507,195.

12. LEASE REVENUE

In 2013, the County entered into a lease agreement with Sheetz, Inc. for the lease of a 2.96 acre parcel. The cost and carrying amount of the land is \$100. The terms of the lease are for a fifteen-year period, with an option to renew, commencing on February 1, 2014 and ending on February 1, 2028. The annual rent begins at \$6,250 per month

for the first ten years, and will increase to \$6,875 per month for the last five years of the lease.

Future minimum annual rental payments for the lease are as follows:

2015	\$ 75,000
2016	75,000
2017	75,000
2018	75,000
2019	75,000
Thereafter	<u>712,500</u>
	<u><u>\$ 1,087,500</u></u>

13. COMMITMENTS AND CONTINGENCIES

Revenues provided to the County by the state and federal governments are subject to audit by respective grantor agencies. Potential reimbursements may be required as a result of such audits. No provision has been made for potential reimbursements in the financial statements as material amounts are considered to be unlikely.

The County is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance coverage from coverage in the prior year.

The County is insured for various types of insurance including the following: general liability, auto, crime, law enforcement liability, public officials/employee practices liability, and property/equipment breakdown insurance. Deductibles range from \$1,000 to \$25,000 per claim or occurrence. Maximum limits for general liability, auto, public officials/employee practices, and law enforcement are \$5,000,000 per occurrence. The maximum limit for crime coverage is \$1,000,000 per occurrence. Property is covered on the total insured value subject to a \$173 million limit per occurrence and equipment breakdown is insured at \$100 million per accident.

The County is also involved in contracts related to various projects, including the Government Center Annex Project to construct additional office space and a parking

garage. Construction began in May 2014 and is estimated to be completed by August 2015, with a total project cost estimated at \$14.1 million. Construction and development commitments outstanding related to this and other projects as of December 31, 2014 totaled approximately \$6.4 million.

There are various other matters of pending litigation in which the County is involved. The County Solicitor believes that it is unlikely such matters would significantly affect the financial position of the County.

Guaranteed Loans

As part of a local retail department store's (store) bankruptcy reorganization, the County closed on a Section 108 loan on behalf of the store in the amount of \$5.8 million in May 2009. The store is responsible for repayment of the loan, but the County was required to pledge future Community Development Block Grant allocations for the life of the loan to be used in the event of default by the store. The loan is required to be repaid over a 20 year period.

In June 2014, the County approved a loan guarantee in the amount of \$500,000 to the Butler County Airport Authority for a loan from the Pennsylvania Infrastructure Bank. The loan, which will fund construction of two general aviation T-hangars at the airport facility, requires repayment over a 10 year period. Under the guarantee, the County's responsibility for financial obligation in any year is limited to the amount of the County's annual liquid fuels tax fund allocation for that year.

Health Choices

The County, along with Armstrong, Indiana, Lawrence, Washington and Westmoreland Counties (SW-6 Counties), are the contractors with the Pennsylvania Department of Public Welfare (DPW) for providing services under the Health Choices Program. Health Choices is Pennsylvania's managed care program for adults and children on Medical Assistance. Value Behavioral Health of Pennsylvania (VBH-PA) was selected as the Behavioral Health Managed Care Organization (BHMCO) for the SW-6 Counties. In addition, the SW-6 Counties formed a private non-profit, Southwest Behavioral Health Management, Inc. (Corporation) for the purpose of monitoring the behavioral health services of the Health Choices Program.

During 2012, the SW-6 Counties entered into an intergovernmental agreement for the purpose of authorizing the transfer of funds designated for risk and contingency and for medical funding to the Corporation. The County currently has a receivable

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

recorded in the amount of \$4,993,969 in the Health Choices fund. The receivable represents the amount of cash held by the Corporation on behalf of the County at December 31, 2014. In the agreement effective January 1, 2012 between the SW-6 Counties and VBH-PA, the Counties retained the right to meet the full DPW contractual risk requirements, including insolvency and equity; however, the 2012 SW-6 Counties and VBH-PA agreement allowed for risk sharing and that option was exercised for 2012. Under this option, the SW-6 Counties were at risk for total medical funds plus 9.50% over the medical funds, then VBH-PA assumed the aggregate risk. Effective January 1, 2013, the SW-6 Counties met the equity and insolvency requirements imposed by DPW using risk and contingency dollars held by the Corporation and allowable financial instruments. This change resulted in VBH-PA moving to an administrative services relationship with the SW-6 Counties from the 2012 risk sharing relationship.

14. DISCONTINUED OPERATIONS

After identifying financial and regulatory burdens involved in operating a nursing home, on May 15, 2014, the County closed on the sale of the Sunnyview Nursing and Rehabilitation Center in the amount of \$20.4 million. As a result of the sale, the County recognized a gain of approximately \$10 million on the disposal of the center's operations as a special item.

15. SUBSEQUENT EVENTS

Budget

The County Commissioners approved a \$184.2 million budget for 2015 with no change in the property tax rate of 24.628 mills.

Debt

In January 2015, the County issued a tax anticipation note in the amount of \$7.5 million. It is intended that the note will be repaid during 2015.

B. BUTLER COUNTY COMMUNITY COLLEGE

1. ORGANIZATION

The Butler County Community College (BCCC), chartered in 1965, was the first community college in Western Pennsylvania. On September 26, 1966, BCCC opened its doors to 242 day and 190 evening students. During the current fiscal year, 5,221 students were enrolled in credit programs and another 10,474 people took part in the many other educational opportunities available on the BCCC main campus, and the Cranberry, Lawrence, Brockway, and Mercer sites. BCCC is dedicated to providing quality and comprehensive educational opportunities accessible to all that can benefit.

Reporting Entity

BCCC is a component unit of the County of Butler (County), Pennsylvania. The Commissioners of the County appoint all members of the governing Board of Trustees (Board) of BCCC. As sponsor of BCCC, the County provides funding for up to one-third of operating expenses and one-half of the capital expenses. In addition, the County's approval is required for the issuance of any bonded debt by BCCC, as the County is legally committed for a portion of the repayment of such debt.

In evaluating BCCC as a reporting entity in accordance with the Governmental Accounting Standards Board (GASB), management has addressed all potential component units. Consistent with applicable guidance, the criteria used by BCCC to evaluate the possible inclusion of related entities within its reporting entity are financial accountability and the nature and significance of the relationship.

Following is a brief description of the component unit that is included within the financial reporting entity because of the nature and significance of the relationship:

Butler County Community College Education Foundation (Foundation)

The Foundation is a non-profit organization incorporated on October 1, 1985. The purpose of the Foundation is to promote the educational efforts of BCCC. A nineteen member Board of Directors governs the Foundation. The President of BCCC is a member of the Board of Directors and the Executive Director of the Foundation is an employee of BCCC. Separate financial

statements of the Foundation are prepared and can be obtained through the Foundation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of BCCC have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. GASB is the authoritative standard-setting body for the establishment of governmental accounting and financial reporting principles. BCCC's significant accounting policies are as follows:

Basis of Accounting

The financial statements of BCCC have been prepared on the accrual basis. Accordingly, revenues are recorded when earned and expenses are recognized when the liability is incurred. BCCC records student receivables at the time of registration for classes. As of June 30, 2014, BCCC determines the portion of the receivable and the tuition that has been paid that relates to classes that will take place after June 30. This amount is reported as unearned revenue.

Operating revenues and expenses consist of those revenues and expenses that result from ongoing principal operations of BCCC. Operating revenues consist of tuition and fees and government grants. Nonoperating revenues and expenses consist of those revenues and expenses relating to subsidies and capital items.

The Foundation's policy is to prepare its financial statements on the accrual basis of accounting. Under this basis, revenues are recognized when earned and expenses are recognized when incurred. If an expenditure results in the acquisition of an asset having an estimated useful life which extends substantially beyond the year of acquisition, the expenditure is capitalized and depreciated or amortized over the estimated useful life of the asset.

Financial Reporting

BCCC elects to report its activity as "business-type activities only" financial statements.

Classification of Net Position

Accounting standards require the classification of net position into three components – net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

- Net investment in capital assets – The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflows of resources attributable to the unspent amount is not included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflow of resources is included in the same net position component (restricted or unrestricted) as the unspent amount.
- Restricted – The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported. Two categories are used to further describe restricted net position:
 - Expendable – can be expended in compliance with the external restriction
 - Nonexpendable – net position that is required to be retained in perpetuity

Expendable restricted net position at June 30, 2014 of BCCC consisted of \$5,376,830 related to the support agreement receivable and \$2,350,000 related to unspent loan proceeds for renovations.

Net position related to the Foundation is described in Note 9.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

- Unrestricted – The unrestricted component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

BCCC uses restricted resources, when available, before using unrestricted resources to pay expenditures.

Inventory

Inventory consisting of books and merchandise held for sale in the bookstore is stated at average cost and is expensed as sold or used.

Allowance for Uncollectible Receivables

BCCC maintains the most current two academic years as student receivables. All other student receivables are considered to be uncollectible and are written off. During the year, BCCC wrote off \$9,933 of receivables considered to be uncollectible.

Capital Assets and Depreciation/Amortization

Physical plant and equipment are stated at cost at date of acquisition or fair market value at date of donation in the case of gifts. Depreciation/amortization on assets has been provided using the straight-line method over the estimated useful lives, as follows:

Buildings	30-60 years
Furniture and fixtures	15-20 years
Library reference materials and books	5 years
Maintenance equipment	10 years
Office and computer equipment	5-10 years
Vehicles	2-5 years
Technology software	5 years

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investments

Investments purchased by BCCC consist of U.S. Government Obligations and are carried at fair value. Investments of the Foundation are reported at fair value with the exception of stock held in a non-publicly traded entity as discussed in Note 3.

Bond Discounts

Original issue bond discounts are deferred and amortized over the life of the related bonds using the straight-line method of amortization. The unamortized balance of the bond discount is recorded as a reduction of the related bond payable.

Deferred Outflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. BCCC only has one item that qualifies for reporting in this category, the deferred charge on refunding. The deferred charge on refunding resulted from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. BCCC does not have any items that qualify for reporting in this category.

Adopted Pronouncements

GASB Statement No. 70, *“Accounting and Financial Reporting for Non-exchange Financial Guarantees.”* This statement specifies the information required to be disclosed by governments that extend non-exchange financial guarantees, and requires a government that extends a non-exchange financial guarantee to recognize a liability when qualitative factors and historical data, if any indicate that it is more likely than not that the government will be required to make a payment on the

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

guarantee. There is no financial statement effect due to the adoption of this pronouncement.

Pending Pronouncements

GASB has issued the following statement that will become effective in a future year as shown below. Management has not yet determined the impact of this statement on BCCC's financial statements.

GASB has issued Statement No. 68, "*Accounting and Financial Reporting for Pensions*," effective for fiscal years beginning after June 15, 2014 (BCCC's June 30, 2015 financial statements). This statement revises existing guidance for the financial reports of most pension plans, and establishes new financial reporting requirements for most governments that provide their employees with pension benefits.

Because BCCC is a component unit of the County, GASB standards are implemented by BCCC in the fiscal period that relates to the calendar year of implementation by the County.

3. DEPOSITS AND INVESTMENTS

Deposits

Under Section 440.1 of the Pennsylvania Public School Code for 1949, as amended, BCCC is permitted to invest funds consistent with sound business practices in the following types of investments:

Obligations of (a) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth of Pennsylvania, or (c) of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

Deposits in savings accounts, time deposits, or share accounts of institutions insured by the Federal Deposit Insurance Corporation (FDIC) to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral, as provided by law, is pledged by the depository.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

The deposit and investment policy of BCCC adheres to state statutes and prudent business practice. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of BCCC.

Credit risk. The risk that an issuer or other counterparty to an investment will not fulfill its obligations is called credit risk. The majority of BCCC's investments is in U.S. Government Obligations and is therefore not exposed to this type of risk.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At year-end, the carrying amount of BCCC's cash and deposits was \$12,026,939 and the related bank balances totaled \$12,211,370, of which \$525,000 was covered by FDIC. The remaining balance was collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and have collateral held by an approved custodian in the institution's name.

Additionally, at year-end, the carrying amount of the Foundation's cash and deposits was \$1,142,246 and the related bank balance totaled \$1,144,034, \$110,835 of which was covered under FDIC insurance. There were no amounts in excess of FDIC limits. The remaining balance was invested in "sweep" repurchase agreement accounts, which are not FDIC insured. The financial institution holding the Foundation's "sweep" balances has pledged assets in a coverage ratio of 1.05%. For every one dollar in uninsured "sweep" funds, the financial institution has pledged \$1.05 in assets.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At year-end, the carrying amount of BCCC's investments was \$2,953,574.

BCCC's investments at June 30, 2014 are composed of the following:

Government and agency securities	\$ 1,644,168
Corporate bonds	443,075
Cash equivalent investments	<u>866,331</u>
	<u><u>\$ 2,953,574</u></u>

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

At year-end, \$245,062 of the cash equivalent investments was covered by federal depository insurance. The remaining \$2,708,512 of BCCC's investments are not insured or registered and are held by the financial institution's trust department or agent, but are not in BCCC's name.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near-term and that such changes could materially affect the amount reported on the statement of net position.

The Foundation's investments at June 30, 2014 are composed of the following:

Cash and cash equivalents	\$ 862,011
Mutual funds	982,119
Municipal bonds	133,794
Common stock	<u>1,966,925</u>
	<u><u>\$ 3,944,849</u></u>

The Foundation's investments are not insured or registered and are held by the financial institution's trust department or agent, but are not in the Foundation's name. Those amounts identified above as cash and cash equivalents include funds being held in highly liquid money market mutual funds that are invested in governmental debt securities with maturities from the date of purchase of three months or less.

					<u>\$ 30,030,000</u>	

Amounts above do not reflect an original issue discount in the amount of \$227,606 for the bonds. This amount is amortized using the straight-line method.

In March 2000, the State Public School Building Authority (SPSBA) undertook the financing of a project on behalf of BCCC with the proceeds of bonds in the amount of \$16,533,643. The proceeds of Series D of 2000 (Series D) Bonds were used to finance the construction of a new science/technology building which includes classrooms, labs, theatre, cultural center, and other capital projects such as campus-wide networking, paving, HVAC, roofing projects, and various other projects. In addition, a Fire Science Training Center was constructed including classrooms, training tower, controlled-burn building, and training pad. Approximately, \$2,470,000 of the proceeds was used to defease the 1992 Series L Bonds. The interest rates on the bonds range from 4.0% to 5.50% with the final bonds maturing June 15, 2016.

During 2001, the SPSBA and BCCC issued Series G of 2000 (Series G) Bonds in the amount of \$4,121,861. The Series G Bonds include current interest bonds in the amount of \$2,060,000 and capital appreciation bonds in the amount of \$2,061,861. The Series G Bonds were issued to cover additional costs associated with the construction of the science/technology building. The interest rates on the Series G Bonds range from 4.5% to 6.0% with the bonds maturing January 15, 2031.

5. PENSION AND RETIREMENT PLANS

Plan Description

BCCC contributed to a governmental cost-sharing multiple-employer defined benefit pension plan (Plan) administered by the Public School Employees' Retirement System (PSERS). Benefit provisions of the Plan are established under the provisions of the Public School Employees' Retirement Code (Code) (Act No. 96 of October 2, 1975, as amended) (24 Pa. C.S. 8101-8535) and may be amended by an act of the Pennsylvania State Legislature. The Plan provides retirement and disability, legislatively mandated ad hoc cost-of-living adjustments, and healthcare insurance premium assistance to qualifying annuitants. PSERS issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. That report may be obtained by writing to the Bureau of Fiscal Control, PSERS, P.O. Box 125, Harrisburg, PA 17108-0125.

Funding Policy

Contributions are required by active members, colleges, and the Commonwealth of Pennsylvania as established by the PSERS Board in accordance with the Code. Employees must contribute 5.25% or 6.50%, based on the employee's PSERS election of membership class, of their regular monthly compensation if they began participation in the plan prior to July 22, 1983, or 6.25% or 7.50%, based on the employee's PSERS election of membership class, if their participation began after July 22, 1983. Employees hired after July 1, 2001, contribute 7.50% of their regular monthly compensation.

BCCC's contribution shall be at a rate determined annually by PSERS. BCCC's contribution rate for the fiscal year ended June 30, 2014 was 8.465% and the Commonwealth of Pennsylvania contributed an additional 8.465% of covered payroll. This aggregate rate of 16.93% is composed of a pension contribution rate of 16% for pension benefits and 0.93% for healthcare insurance premium assistance. These rates are expected to increase in future years.

BCCC contributed \$383,424, \$274,865, and \$185,262 for the years ended June 30, 2014, 2013, and 2012, respectively, which was equal to its required contribution for the year. In accordance with Act 29, the Commonwealth of Pennsylvania also contributes an amount equal to that contributed by BCCC.

Teachers Insurance and Annuity Association/College Retirement Equities Fund

All regular BCCC employees who are classified as staff-exempt, faculty, or other academic may enroll in an optional retirement plan through the Teachers Insurance and Annuity Association College Retirement Equities Fund (TIAA-CREF). This is in lieu of participation in the PSERS Board plan as detailed above. Employees electing TIAA-CREF contributed 5.25% of their regular monthly compensation if they began participation in the plan prior to July 22, 1983, or 6.25% if their participation began after July 22, 1983. BCCC's contribution rate for the fiscal year ended June 30, 2014 was 10%.

During fiscal year 2014, BCCC contributed \$864,736 to this plan. The participants have personal contracts with TIAA-CREF and personally own annuities. This full vesting allows participants to transfer to other employers that participate in TIAA-CREF and continue to accumulate retirement benefits. The optional Retirement Plan offered through TIAA-CREF is a Defined Contribution Plan. Accordingly, benefits depend solely on amounts contributed to the Defined Contribution Plan plus investment earnings.

6. ACCUMULATED COMPENSATED ABSENCES

Accumulated compensated absences were comprised of the following at June 30, 2014:

Early Retirement Incentive	Accumulated Sick Leave	Unused Vacation Pay	Total
\$ 18,000	\$ 800,335	\$ 221,899	\$ 1,040,234

Based on actual experience of BCCC, all amounts above are assumed to be long-term.

Depreciation expense is included in rental expense on the statement of revenues, expenses, and changes in net position, as the entire amount for the year ended June 30, 2014 relates to a building the Foundation rents to BCCC.

8. INSURANCE

BCCC is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. BCCC maintains insurance through an independent insurance carrier for these types of business losses. Settled claims for these risks have not exceeded commercial insurance coverage for the past three years. There have been no significant changes in insurance coverage since the prior fiscal year. Management believes the insurance coverage is sufficient to cover BCCC against potential losses.

9. BUTLER COUNTY COMMUNITY COLLEGE EDUCATION FOUNDATION

The Foundation is a non-profit Pennsylvania corporation. It is organized and operated exclusively for educational and cultural purposes to assist in developing and fostering scholarship and charitable activities. A nineteen-member Board of Directors that oversees the holding, investing, managing, and awarding of Foundation assets governs the Foundation. The Internal Revenue Service considers the Foundation exempt from taxes under Section 501(c)(3) of the Internal Revenue Code.

The Foundation reports under FASB standards. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. Minimal modifications have been made to the Foundation's financial information in BCCC's reporting entity for those differences, as the differences were not significant to the reporting entity.

Support Agreement and Investment Agreement

The Foundation has made a committed effort to make capital improvements to BCCC and as a part of that commitment in October 2000, BCCC entered into a support agreement with the Foundation. Funding was provided beginning in fiscal year 2002 and will end in fiscal year 2031. The support agreement outlines the minimum yearly contributions BCCC will receive from the Foundation. Below is the schedule of minimum payments that are to be made under the support agreement:

Fiscal Year	Amount
2015	\$ 129,000
2016	127,000
2017	127,000
2018	123,200
2019	120,200
Thereafter	<u>10,416,200</u>
	<u><u>\$ 11,042,600</u></u>

As a result of the support agreement, BCCC has recorded a receivable at net present value in the amount of \$5,376,830.

In November 2000, the Foundation entered into an investment agreement with a financial institution to provide funds to meet its obligation to make the minimum payments to BCCC. The investment agreement required that the Foundation make a

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

one-time payment of \$3,200,000; in return, they would receive payments totaling \$12,627,189 through 2031. The payments are guaranteed only by the financial institution and are not insured.

The investment agreement requires that the investment be collateralized if the financial institution's S&P or Moody's rating falls below 'AA-' or 'Aa3,' respectively. During 2009, the rating was downgraded, and the Foundation entered into a collateral agreement in which a third party provided collateral in the amount of 105% of the investment value. The collateral assets are comprised of U.S. Treasury Securities and held in the name of the Foundation by a Trustee. The collateral agreement ceases to exist if the S&P or Moody's rating of the original agreement is upgraded above the required ratings.

The investment agreement also requires that if the financial institution's S&P or Moody's rating is withdrawn or suspended, or falls below 'A', the provider must 1) assign the investment agreement to an alternative provider acceptable to the Foundation that is rated at least 'AA-' or 'Aa3' by S&P or Moody's, respectively, or 2) at the direction of the Foundation within 10 days of receipt of such direction, repay the contract proceeds, computing any gains or losses arising from the termination. During 2014, the Moody rating was downgraded below 'A' level. The Foundation believes it has the right to waive either option and continue with the investment.

The value of the investment and payable is recorded at June 30, 2014 in the amount of \$5,376,830. The expected rate of return on the investment is approximately 7%.

Donated Stock

The Foundation owned shares of donated stock of a non-publicly traded company. The stock was not recorded on the financial statements because market valuation was not readily determinable. On August 22, 2013, the Foundation sold the 68,220 shares of donated stock for \$272,880, which was recognized as revenue during the 2014 fiscal year.

Pledges Receivable

Foundation pledges receivable are expected to be received as follows:

Fiscal Years ended June 30,	Amount
2015	\$ 153,624
2016	41,677
2017	30,820

Thereafter	<u>1,870</u>
	254,924
Allowance for uncollectible pledges	<u>(4,729)</u>
Pledges receivable, net	<u><u>\$ 250,195</u></u>

The Foundation's estimate for allowance for uncollectible pledges is estimated at approximately 2%, based on the last capital campaign. Decisions to charge off uncollectible pledges are based on management's judgment after consideration of facts and circumstances surrounding potential uncollectible accounts. It is reasonably possible that the Foundation's estimate of an allowance for uncollectible pledges will change.

10. LEASES

Operating Leases

BCCC has entered into various leases for buildings and miscellaneous equipment. It is expected that in the normal course of business, such leases will continue to be required. Net expenditures for rentals under leases for the year ended June 30, 2014 amounted to approximately \$979,543.

In April 2007, BCCC entered into a lease agreement for a site in Lawrence County to begin during 2008. The terms of the lease begin April 1, 2008 and extend for 10 years through and including March 31, 2018. In June of 2008, the terms of the lease were amended. The commencement date changed from April 1, 2008 to July 1, 2008 and the expiration date changed from March 31, 2018 to June 30, 2018.

transfers the property to another entity or uses the property for any purpose other than as a parking facility for BCCC.

The Note obligation decreases by ten percent each anniversary date for ten years from the date of the Note, such that the entire Note will be forgiven as of February 9, 2020. As of June 30, 2014, the value of the contingent obligation on the Note is \$68,330 and is reported in the unearned revenue on the statement of net position.

13. CONTINGENCIES

BCCC is subject to state and federal audits by grantor agencies. Applicable laws and regulations are complex and subject to interpretation. BCCC is not aware of any pending audit findings involving prior or current years. However, compliance with such laws and regulations can be subject to future reviews and interpretation which could result in disallowed costs.

14. COMMITMENTS

For the year ended June 30, 2014, BCCC has various outstanding construction contracts that are material to BCCC's financial statements. The total on all outstanding contracts is \$947,856 and relates to architectural and engineering contracts for the renovation of the Heaton Family Learning Commons, refurbishment of the Science and Technology Building, and construction of a natural outdoor education center and utility relocation of the site of the Children's Creative Learning Center.

15. SUBSEQUENT EVENTS

BCCC had a tuition rate increase for fiscal year 2015. The approved 2014-2015 tuition rate increased to \$96 per credit hour for Butler County residents from \$93 per credit hour in 2013-2014, \$192 per credit hour for non-sponsored Pennsylvania residents from \$186 per credit hour in 2013-2014, and \$288 per credit hour for out-of-state residents from \$279 per credit hour in 2013-2014.

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

C. BUTLER COUNTY AIRPORT AUTHORITY

1. ORGANIZATION

The Butler County Airport Authority (Authority) is a municipal authority, which was created and exists under the Municipality Authorities Act of May 2, 1945.

The Authority was created to maintain the Airport facility and grounds for the benefit of Butler County (County) corporations, businesses, and the general public desiring to engage in aeronautical activity. Federal and state grants are applied for and utilized for the purpose of maintaining a reliever airport status and to continue to improve the Airport. The Authority enters into land leases for corporate and private hangar construction and aviation business as a representative political entity of the County.

The Authority is a component unit of the County of Butler, Pennsylvania. The County Commissioners ratify the appointment of members to the Authority's Board of Directors (Board) and have a financial burden in that bonded debt cannot be issued without the guarantee of the County.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Measurement Focus

The Authority utilizes the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Operations are accounted for as an Enterprise Fund that is financed and operated in a manner similar to private business enterprises, where the intent of the Authority is that the costs (expenses, including depreciation where applicable) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges.

Cash and Cash Equivalents

For purposes of the statements of cash flows, cash equivalents include time deposits, certificates of deposit, and all highly liquid debt instruments with maturities of three months or less when purchased.

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

Bad Debts

The Authority uses the direct write-off method of accounting for bad debts, which recognizes the expense in the period in which the accounts are determined to be uncollectible. No reserve for doubtful accounts is included in accounts receivable at December 31, 2014, as such amounts are immaterial.

Capital Assets

Land, buildings, and equipment are carried at cost and include expenditures for new facilities and major renewals and betterments. Maintenance, repairs, and minor renewals are charged to expense as incurred. The carrying value of buildings and equipment retired or otherwise disposed of and the accumulated depreciation thereon are eliminated from the asset and related reserve accounts, and the resulting difference, after giving effect to any proceeds from sales, is applied to income accounts.

The Authority provides for depreciation on the straight-line method. Land improvements, buildings, and equipment are depreciated at rates which it is estimated will provide reserves equal to the amounts at which the assets are recorded on the books, less their estimated salvage values when retired from service in the ordinary course of business. The estimated useful lives are as follows:

Land improvements	30 years
Buildings	30 years
Runways and taxiways	5-30 years
Vehicles and equipment	10 years

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Adopted Pronouncements

The Authority has adopted Governmental Accounting Standards Board (GASB) Statement No. 70, "*Accounting and Financial Reporting for Non-exchange Financial Guarantees*." This statement specifies the information required to be

COUNTY OF BUTLER, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 OR JUNE 30, 2014

disclosed by the governments that extend non-exchange financial guarantees, and requires a government that extends a non-exchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee.

Pending Pronouncements

GASB has issued Statement No. 72, *"Fair Value Measurement and Application,"* effective for financial statements for periods beginning after June 15, 2015 (the Authority's financial statements for the year ending December 31, 2016). This statement addresses accounting and financial reporting issues related to fair value measurements.

Management has not yet determined the impact of this statement on the Authority's financial statements.

3. DEPOSITS

Pennsylvania statutes provide for investment of governmental funds into certain authorized investment types including U.S. Treasury bills, other short-term U.S. and Pennsylvania government obligations, insured or collateralized time deposits, and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow pooling of governmental funds for investment purposes.

The following is a description of the Authority's deposit risks:

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority does not have a formal deposit policy for custodial credit risk. As of December 31, 2014, \$1,708,744 of the Authority's bank balance of \$1,958,744 was exposed to custodial credit risk, which is collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution's name. These deposits have carrying amounts of \$1,956,426 as of December 31, 2014, which are reported as cash and cash equivalents in the statement of net position.

7. LEASES AND UNEARNED OPERATING REVENUE

Fixed Base Operation Lease Agreements

On September 9, 2004, the Authority entered into a Fixed Base Operation Lease Agreement (FBO Agreement) with AirQuest Aviation, L.P. (AirQuest). The Authority has leased the premises to AirQuest for a period of 15 years commencing on August 9, 2004 and ending August 9, 2019. On September 17, 2008, the Authority entered into an additional FBO Agreement with AirQuest. The Authority has leased the additional premises to AirQuest for a period of 11 years commencing on August 9, 2008 and ending August 9, 2019. The business is operated in conformance with standards and guidelines promulgated by the Authority and include the following services – aircraft charter, aircraft rental and sales, flight instruction, fuel and oil

sales, aircraft and aircraft engine maintenance, and such other commercial activities approved by the Authority.

The FBO Agreements also contain an option for renewal for an additional 14 years. For this time period, the FBO Agreements provide for payments from AirQuest for a land area component, a fuel sale component, and a percentage of business component. The land area component is equal to ten cents per square foot leased, adjusted after each five-year period for changes in the consumer price index. The fuel sale component is equal to eight cents per gallon of fuel sold, or \$20,000 annually, whichever is greater, for the first five years, increasing to nine cents per gallon, or a minimum of \$22,500 annually for the sixth through tenth years; and ten cents per gallon, or a minimum of \$25,000 annually thereafter. The percentage of business component is equal to the greater of \$2,000 or two percent of the Lessee's gross sales.

Restaurant Lease Agreement

On October 1, 2010, the Authority entered into an agreement with the Runway Restaurant Sports Bar & Grille, LLC (Restaurant) for the lease of the second floor of its terminal building. The terms of the lease are for a four-year period commencing on October 1, 2010 and ending on September 30, 2014. The annual rent began at \$500 per month, and will increase at a rate of \$500 per month each year. On October 1, 2014, the Authority entered into a new lease with the Restaurant for the same space for a one-year period commencing on October 1, 2014 and ending on September 20, 2015 with the option to renew an additional three year term. The annual rent is \$2,000 per month and will be adjusted annually based upon the consumer price index if extended.

Future minimum annual rental receivables for all Authority leases are as follows:

2015	\$ 149,577
2016	136,768
2017	136,768
2018	136,768

In addition, the Authority has entered into lease arrangements with businesses and individuals for hangar space. These leases are generally short-term and on an individual basis not material to the financial statements.

8. OIL AND GAS LEASE AGREEMENT

The Authority entered into an agreement for the lease of land for oil and gas drilling. The terms of the lease are for a five-year period commencing on May 9, 2011 and ending May 9, 2016, and as long thereafter as oil or gas is produced. The lease called for an up-front payment of the full lease amount of \$1,068,856 and a one-time bonus of \$213,784 totaling \$1,282,640, which the Authority received during 2011. The amount recognized as revenue during 2014 was \$213,771, with \$213,772 reported as unearned revenue on the statement of net position. During the term of the lease, the Authority will receive royalties of 18% of the proceeds received for all gas produced, metered, and sold. The Authority received no royalties during 2014.

9. PENSION PLAN

Under the authority of the Board, a Simplified Employee Pension Plan (Plan) was established. The Board has the authority to amend the Plan as needed. The AIM Family of Funds administers the Plan. Any full-time or part-time employee who works more than 1,040 hours per calendar year is eligible. The percentage rate of contribution by the Authority is determined annually by the Board and was 3% in 2014. Contributions to the Plan during 2014 were \$3,453. Employees currently are not eligible to individually contribute to the Plan.

10. RISK MANAGEMENT

The Authority is exposed to various risks of losses related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority carries commercial insurance for all types of risks of loss, including workers' compensation. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any past three years.

11. CONTINGENT LIABILITIES

The Authority is subject to state and federal audits by grantor agencies. These laws and regulations are complex and subject to interpretation. The Authority is not aware of any pending audit involving prior or current years; however, compliance with such laws and regulations can be subject to future reviews and interpretation, which could result in disallowed costs.

12. COMMITMENTS

For the year ended December 31, 2014, the Authority had various outstanding construction contracts that are material to the Authority's financial statements. The total on all outstanding contracts is \$1,614,900 and relates to the T-hangars, extending the south side taxiway, and fuel farm projects. The Authority has received federal and state grants to help fund these projects.

SUPPLEMENTARY INFORMATION

OTHER GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. Following are the Special Revenue Funds used by the County:

The **Human Service Special Revenue Funds** are used to account for the proceeds of revenue received from various federal, state, and county sources. These funds, which are restricted for the provision of specified social services to eligible recipients, include:

- Area Agency on Aging Program
- Community Services Block Grant
- Homeless Assistance Program
- Council on Drug and Alcohol
- Medical Assistance Transportation Grant
- Senior Aide Program
- State Food Program
- Welfare to Work Transportation Grant
- Health Choices Reinvestment
- Project Hope Program
- Independent Living Grant
- Shared Ride Transportation Funds
- Tobacco Fund

The **Hotel Tax Fund** accounts for the monies collected from the County's 3% hotel/motel tax.

The **Marcellus Shale Fund** accounts for state revenue to be used per Act 13 of 2012 Marcellus Shale Impact Fee guidelines.

The **Act 13 Bridge Improvement Fund** accounts for state revenue used to fund replacement or repair of at-risk deteriorated bridges.

The **Act 89 Bridge Improvement Fund** accounts for state revenue used to fund the building and improvement of roads and bridges.

The **Liquid Fuels Tax Fund** and the **Act 44 Liquid Fuels Fund** account for state aid revenues used for building and improving roads and bridges.

The **Path Transitions Project Fund** accounts for federal funds used to provide services to homeless individuals with mental health and drug and alcohol issues.

The **Domestic Relations Operating Fund** is used to account for expenditures and revenue related to the operation of the County's child support enforcement program, which is funded by federal, state, and county funds.

The **Conservation District Fund** accounts for state grants and aid and other contributions and donations to be used for conservation and development of the County's natural resources.

The **Dirt and Gravel Roads Fund** accounts for state funds from the Conservation Commission to fund safe, efficient, and environmentally sound maintenance of sections of dirt and gravel roads which have been identified as sources of sediment and dust pollution.

The **Grant Fund** is used to account for conservation grants that are not to be commingled with other conservation grants.

The **Landfill Closure Fund** accounts for monies received via Act 68 due to landfill closures.

The **HAZMAT Emergency Response Fund** accounts for monies received from companies who have hazardous waste removed from their premises. These funds are to be used in the event of a hazardous waste accident.

The **Waste Management Fund** accounts for monies received from recycling grants, landfill host county fees, and county solid waste management administrative fees. These funds are to be used for recycling and solid waste compliance programs.

The **County Records Improvement Fund and Recorder of Deeds Records Improvement Fund** are used to account for a \$2 recording fee surcharge that is allocated evenly between the two funds. The money is to be expended in accordance with a comprehensive records management plan based on the goal of standardizing and equalizing the capabilities of all County offices consistent with their need to receive, manage, and provide information to the public as efficiently as possible.

The **Central Booking Fund** is used to account for fees collected from individuals when obtaining electronic photos and fingerprints. The fee is collected to offset the costs of equipment, supplies and wages incurred in order to obtain the photos and fingerprints.

The **Juvenile Court Restitution Fund** is used to account for fees collected from juveniles on probation. Juveniles are able to obtain money from this fund based upon hours worked in community service projects. For every hour a juvenile probationer works, a certain sum is then released from the fund for application to the restitution owed.

The **Clerk of Courts Automation Fee Fund, Prothonotary Automation Fee Fund, and Register of Wills/Orphan Court Automation Fee Fund** are used to account for fee surcharges collected by the respective departments, which will be used solely for the purpose of automation and continued automation updates for the respective departments.

The **Homeless Prevention and Rapid Re-Housing Program Grant (HPRP Grant) Fund** accounts for federal grant revenue and expenditures designated for the purpose of providing short-term and medium-term rental assistance, housing relocation and stabilization services, mediation or outreach to property owners, credit repair, security or utility deposits, utility payments, rental assistance, moving cost assistance, case management, or other appropriate activities for homelessness prevention and rapid re-housing of eligible persons who have become homeless.

The **Emergency Shelter Reno Grant Fund** accounts for the revenue and expenditures appropriated by the Stewart B. McKinley Homeless Assistance Act of 1987 for the purpose of the renovation of a shelter for homeless teenagers.

The **Recreation Fund** accounts for state and local grant revenue and expenditures designated for the purpose of adding and upgrading park and recreation facilities.

The **General Fund Grant Fund** is used to account for grants that had previously been reported in the general fund and that are not associated with any other specific fund in order to more closely monitor the funds and the need for contributions from the General Fund.

The **Supportive Services for Veteran Families Fund** accounts for federal grant revenue and expenditures designated for the purpose of providing supportive services to low-income veteran families living in or transitioning to permanent housing.

Capital Projects Funds

The following Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary funds:

The **HOME Grant Fund** accounts for the revenue and expenditures appropriated from the National Affordable Housing Act of 1990 for the purpose of housing rehabilitation.

The **Communities Development Block Grant Fund** accounts for the revenue and expenditures appropriated from the Housing and Community Act of 1974 for the purpose of improving water systems, sanitary sewer systems, storm sewers, housing rehabilitation, public/community facilities, streets and roads, and the removal of architectural barriers.

The **Affordable Housing Program Fund** accounts for the revenue and expenditures authorized by Act 137 of 1992 by the General Assembly of the Commonwealth of PA for the purpose of funding affordable housing efforts in the County, which increases the availability of quality housing, either sales or rentals, to any County resident whose annual income is less than the median income of the County.

The **Shared Ride Capital Grant and 16-B Capital Grant** accounts for grant revenue and expenditures designated for the purpose of adding or upgrading transportation equipment.

Debt Service Fund

The following Debt Service Fund is used to account for the accumulation of funds to pay debt service in future years:

The **Sinking Fund** is used to account for the accumulation of resources for, and payment of, debt service payments.

NOTES:

- (1) Overlapping governments are those that coincide with the geographic boundaries of the County. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Butler County. This process recognizes that, when considering the County's ability to repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government. Percentages were estimated by determining the portion of another governmental unit's population that is within the County's boundaries and dividing it by the County's total population. (Allegheny Township is located within Allegheny-Clarion School District of Clarion County and Buffalo Township is located within Freeport Area School District of Armstrong County. Residents of Armstrong and Clarion Counties living in the Karns City School District were deducted from the total of that school district's population).
- (2) School District Debt is as of June 30, 2014.
- (3) Municipal Debt is as of December 31, 2013. The 2014 amounts were unavailable.
- (4) Butler County Airport Authority and Butler County Community College are component units. Butler County Community College debt is as of June 30, 2014.
