

Butler County's Household Hazardous Waste and Electronics Collections

November 5, 2021

For Immediate Release

Due to notification received that Butler County's household hazardous waste and electronics collection contractor is ceasing all operations immediately and permanently, the two remaining collections scheduled for 2021 and twelve planned for 2022 are being cancelled until further notice. Qualified contractors are currently being researched that may be able to continue these collections. This has been a very popular program and will hopefully be able to be operational again soon.

Since its inception in 2002, Butler County began by holding once per year events with hazardous waste and electronics dropped off at separate collections. In 2010, the program was expanded to once per month collections where residents could conveniently bring both hazardous waste and electronics to one event with scheduled arrival times to reduce waiting. To date, the following amounts have been collected:

857,794 pounds of hazardous waste (428.9 tons)

1,154,348 pounds of electronics (577.17 tons)

For more information on other options for disposal or recycling some of the items that have been collected in this program please contact the Butler County Department of Recycling & Waste Management at (724) 284-5305 or email skelly@co.butler.pa.us.
